On the inside

New tax forms are simpler

As income tax time rolls around again taxpayers ask the familiar question, what's new for this year? And according to the Michigan Association of Certified Public Accountants, the big news is simplified tax forms. See story on Page A-4, 10.

Romulus man ends course

S. Sgt. Norman K. Look, the son of Mr. and Mrs. Kenneth Look of Cheville Road, Romulus, has graduated from the U.S. Air Force Security Service

Noncommissioned Officer Leadership School at Goodfellow Air Force Base, Tex. Find out who's in the armed forces on Page A-2.

Heating law is explained

One state representative is letting senior citizens and other eligible residents know just what they can look forward to under the Home Heating Assistance Bill, signed into law in late 1977. See story on Page A-5.

Okayed for March 4

Trustee recall vote set

By BOB AMEEN
ANP Staff Writer

A tentative date of Saturday, March 4, 1978, has been set for a recall election for four trustees of the Romulus school board.

Mrs. Jean Voight, speaking for the recall group in Romulus, said Friday that they had been notified by Joseph Martina, Wayne County elections commissioner, of the county clerk's approval of sufficient names submitted on recall petitions. Named in the recall petitions are: Gloria Chandler, secretary; Gerald Budd, president; Gordon Silvey, trustee; and Ron Christensen, trustee. A fifth trustee, Jack Bath, also was named in the recall petition, but he has resigned from the board.

Mrs. Voight explained that Martina had informed her that a meeting will be held Jan. 11 (today) to confirm the exact date for the recall election of school board trustees in Romulus.

Commenting upon the recall group, headed by Mrs. Theresa Kraft, she said the original 42 persons who circulated petitions "did a good job of keeping politics out of the recall drive."

The recall drive stemmed from the concern of parents and school district voters over cutbacks made last year by the board in pupil busing, services and programs in the public school system.

Although most of the cutbacks were restored and reinstated following the successful passage of 8.5 mills in November, many of the persons who initiated the original recall drive still are not happy with several members on the school

board for ordering the cutbacks.

Mrs. Voight said she and many in her group feel that much of the community's populace is still worked up over the recall of the four trustees.

"Although one of our circulators only obtained 13 names on his petition, another got 156 names with no trouble at all," she maintained.

As a housewife and the mother of two school-age children herself, Mrs. Voight expressed admiration for her tightly-knit group and its dedication to getting the job done in spite of many obstacles thrown in its path.

"When it came time to turn in our original list of petitions, each with

more than the required 1,285 names, we didn't know who to turn them into," she said.

She said the county elections commissioner said the recall group should turn petitions into the Romulus school board, the state elections commissioner in Lansing suggested the city clerk, while a friend and private attorney said he believed the city clerk was the proper recipient.

Officials in Roseville public schools, where a similar recall had been carried out, said they were not sure who should receive the recall petitions. A spokesman for the

(Continued on Page 3)

Two parks studied

Eye lighted ball fields

With the booming popularity of slow-pitch softball for both men and women's teams, the need for lighted ball fields is becoming more evident each year.

With that in mind, the Romulus Recreation Commission has recommended that City Council authorize the putting up of lights at Park No. 1 at Henry Ruff and Beverly roads.

However, council tabled the recommendation until further study is conducted.

At last week's council meeting, Mayor William Oakley expressed his opinion that all lighted ball fields should be at one location. In his memo to council members, Oakley informed them that, Glenn Roberts, city engineer was on vacation and a complete report was not available.

"We have contacted a representative from Detroit Edison in regards to this matter and he is in the process of doing research of the dollar amount for a comparison of both fields," Oakley stated, referring to Henry Ruff and Elmer Johnson parks.

"We have also contacted other communities as to the reactions of the citizens to their lighted ball fields, costs, locations and general ideas and suggestions for our field," Oakley said. The mayor promised a complete report to council members at last night's meeting, but, due to further cost campaign study by Detroit Edison, the finished report is

expected at the Jan. 24 council meeting.

One estimation placed the cost of having all lighted ball fields at one location at between 135,000 to \$40,000.

In other action, the Recreation Commission unanimously resubmitted a request for engineering services for Kennedy Park improvements to include beautification of the site together with a restroom building. It also called for moving the parking lot to the west side of the park and installing outdoor basketball poles.

However, Council put off any action on the Kennedy Park improvements until a previous engineering study is examined and another study dealing with Five Points Road intersection is completed.

In a continuing effort to establish a Romulus Park ordinance, John Dumas, recreation commission chairman, appeared before council again to report on how neighboring cities deal with us for alcohol in their parks. His comparison study was given verbally and council asked for it to be submitted in written form.

Allen Park has no drinking except with permission. Garden City permits beer and wine. Inkster has no drinking except with permission, while in Lincoln Park drinking is allowed, but not from bottles.

The report continued to show a wide variance in procedures at surrounding parks. In Livonia, the mayor has emergency powers to

permit drinking on certain occasions. Taylor permits drinking and Wayne allows alcohol in parks for civic organizations and in the community center, according to Dumas' report.

The survey found that few cities have a total ban on the use of booze.

So, council continues to try and come up with a park ordinance to cover all situations, especially problems caused by persons who have had too much to drink.

Councilman Jimmie C. Raspberry said the city has a disorderly person ordinance which he felt would cover any problems caused in the city's parks by people who get drunk and disorderly.

Others feel there should be a specific park ordinance covering the situation.

The Recreation Commission sent a communique to Stephen Bonczek, community development director, requesting him to pursue any and all available recreation grant funds. This should include grants available for Community Recreation Centers as well as park development.

The memo continued: "The commission has on several occasions taken a formal stand on the need for a Recreation Center as witnessed by commission actions on Dec. 1, 1976 Feb. 2, 1977; March 2, 1977; and again on Dec. 7, 1977. Further, it is our wish that you proceed forthwith in the development of plans for such a project."

Victim dying

Police seek green Pinto in hit-and-run accident

Wayne County Sheriff Detectives have found an eye witness to the hit-and-run accident in Romulus early

New Year's Day that has left the victim unconscious with serious brain damage.

Det. Frank Burton said he received a call from a young lady who reported she drove past the accident and phoned him when she read the hit-run story in the newspaper.

The eye witness said she was behind the car which struck Kent Heinbokel, 18, of Trenton, and described it as a green Pinto runabout.

A brown-haired lady in her early 20's, with shoulder-length hair and wearing a light-colored trench coat with belt and wide lapels was bending over a man lying on the ground, the witness reported.

Another girl was at the scene by the woman bending over the man's body on the ground, according to the phone caller to Burton.

The accident took place about 2 a.m. Jan. 1 on Middlebelt, south of Goddard, across from Airway Car Rental on the west side of the road, police reported.

Police did not know the exact make of automobile until the witness described it. Heinbokel, who was found unconscious on the shoulder of

the road, was taken to Heritage Hospital in Taylor.

Emergency surgery was performed on a compound fracture of the victim's right leg, but extensive brain damage has left Heinbokel unconscious since the accident and doctors do not expect him to live.

Description of the vehicle was helped by work done on the victim's clothing at the Michigan State Crime Lab in Northville. Fragments of a windshield and chips of paint were found in the clothes, Burton said.

Burton also reported that his office is checking with area bump and collision shops for other leads in finding the hit-run vehicle.

He requested area residents to keep their eyes open for a damaged green Pinto Runabout and to call him or Walter Holowka, at the road patrol at 721-2222 if they have any information.

"Right now the driver can be charged with leaving the scene of a personal injury accident," Burton said, explaining that the driver may have panicked and left the scene.

"If the victim dies, the charge will be manslaughter," Burton said, adding that he hopes the driver of the hit-run will turn himself or herself in to authorities.

Good safety advice for children

Wayne County Sheriff's Department officers have visited several Romulus elementary schools to inform them of the danger of riding with persons they do not know.

"Don't Ride With Strangers" is the title of the safety informational program directed by Patrolman Jerry Billiter of the department's community relations division.

Billiter is shown here with Christopher Wossilek, 5, and Wendy Williams, 5, of Barth Elementary School as he demonstrates his message to their classmates.

Police program to warn kids against strangers a success

Wayne County Sheriff's Department's "Don't Ride With Strangers" program is turning out to be very successful, according to department officers and principals of Romulus schools where they have been held. The program, mainly under the direction of Patrolman Jerry Billiter of the Sheriff Department's Community Relations division, holds assemblies in various local schools and points out to students the danger of riding with people they do not know.

The safety informational drive was initiated by Wayne County Sheriff William Lucas and has been used in several Romulus Schools where principals have expressed praise.

"It is a very needy and worthwhile

program and very helpful in a practical way," said Ellis Stewart, principal of Barth Elementary School, location of a recent program.

Stewart has the highest regard for the safety informational program and expressed hope that it would not be stopped due to lack of funding by the county.

"The purpose of this program is to make kids aware that there are people that will hurt them and to help kids recognize who these people are and what to do if approached by one," Billiter explained.

The program consists of a one-half hour instructional movie and recommendations from sheriff deputies as to what children should

do if accosted by a stranger. It gives other procedures that parents and teachers should follow to assure the protection of school children to and from school.

In conjunction with the safety program, the sheriff's department has printed several hundred bumper stickers in order to impress upon all school age children not to ride with strangers. The program is being funded almost entirely by the men and women of the Wayne County Sheriff's Department through their employee organization.

"We should be ever mindful of the tragic events which have taken place during winter months in our area," Sheriff Lucas said.

Officers have been going to dif-

ferent schools to talk to the students and also have been addressing P.T.A. meetings to inform parents of the much-needed program.

"We want to get this information to as many Romulus people as possible so we can protect all the children," added Billiter, who is very active in explaining various services of the local Romulus division of Wayne County Sheriff's Department to local residents.

Billiter urged residents to contact the department's Youth Bureau at LO-1-5880 at anytime for further information.

Meanwhile, the "Don't Ride With Strangers" safety program hopes to go full speed ahead with its slogan, "Safety First".

In the armed forces

Sgt. Look completes security school

St. Sgt. Norman K. Look, the son of Mr. and Mrs. Kenneth Look of Cheville Road, Romulus, has graduated from the U.S. Air Force Security Service Noncommissioned Officer Leadership School at Goodfellow Air Force Base, Tex.

The sergeant, who was trained in military management and supervision, is a traffic management supervisor at Chicksands Royal Air Force Station, England.

Sgt. Look's wife, Kathryn, is the daughter of Elbert Mullikin of Wauzeka, Wis.

Also in the armed forces:

Navy Seaman Recruit Steven L. Murphy, the son of Mr. and Mrs. Peter L. Murphy of Jackson Street,

Belleville, has completed recruit training at the Naval Training Center at Great Lakes, Ill.

During the eight-week training cycle, he studied general military subjects designed to prepare him for further academic and on-the-job training in one of the Navy's 85 basic occupational fields.

Included in his studies were seamanship, close-order drill, Naval history and first aid.

He joined the Navy in October 1977.

Navy Operations Spec. Seaman Stephen G. Massingill, the son of Mr. and Mrs. George W. Massingill of

Wabash, Romulus, recently visited Athens, Greece.

He is serving as a crewmember aboard the destroyer USS Blandy, homeported in Norfolk, Va. His ship is operating as a unit of the U.S. Sixth Fleet in the Mediterranean Sea.

During the 10-day visit to the Greek capital, he and his shipmates had the opportunity to visit the Acropolis, the Parthenon and the Temple of Apollo. During the remainder of the cruise, his ship is scheduled to participate in several training exercises with other Sixth Fleet units and with ships of allied nations. Additionally, port visits are scheduled in several Mediterranean coastal cities.

A 1975 graduate of Romulus Senior High School, he joined the Navy in September 1975.

Teresa W. Koenne, the daughter of Mrs. Lila S. Worra of Liberty Street, Belleville, recently was promoted to Army private first class while serving as a subsistence supply specialist with the 3rd Armored Division in Hanau, Germany.

Pfc. Koenne entered the Army in April 1977.

She is a 1976 graduate of Sentinel High School in Missoula, Mont.

Her father, John S. Worra, lives in Anchorage, Alaska.

Pfc. Koenne's husband, Curtis, is with her in Germany.

'Damien': Fascinating look at 'Leper Priest'

"Damien," the play that has been hailed as an "exceptionally moving and genuinely fascinating account of one man's passion and martyrdom," will be shown at 8 p.m. Jan. 24 on Channel 56.

Terence Knapp recreates the heroic Leper Priest of Molokai in this solo performance.

Father Damien de Veuster, a Roman Catholic priest, came to the Hawaiian Islands in the late 1800s to work with the lepers confined to the island of Molokai and died himself a leper after serving there for 16 years. Father Damien holds an honored place in Hawaiian history and presently is being

considered for sainthood by the Vatican.

Along with its critical acclaim, this production of "Damien" by Hawaiian public television also was the subject of an editorial in the Honolulu Star-Bulletin. It said: "There are not many things we recommend with no

qualifications whatever. But we hesitate not a moment to say that readers who tune their television sets to "Damien" will be treated to one of the great dramatic events of the year."

The play, written by Aldyth Morris, is a monologue delivered by

Damien as a spirit watching the progress of his own funeral procession. The tele-drama takes place in five simple, but symbolic sets. Authentic Hawaiian religious costumes and artifacts were used to maintain faithfulness to the original script.

Ford honors area youths' achievements

The outstanding community service and achievement of several Western Wayne County youth was recognized recently as Congressman William D. Ford (D-15th District) announced the recipients of his annual medals of merit.

The medals were handed out to 18 outstanding young people residing in the 15th Congressional District, which includes downriver and Western Wayne County communities.

Winners from Inkster, Westland, Garden City, Van Buren Township, Sumpter Township and Huron Township were among the recipients.

One of the awards was given posthumously to Richard Lowe, who lived in Huron Township. He drowned last year while saving the life of another young boy. His mother, Marilyn McCurdy, accepted the award for him.

Ford gave out the honors at special ceremonies at the Wayne County Intermediate School District building in Wayne recently.

Receiving their awards personally

from the congressman were: Susan Taranowsky of Westland; Darlene Holt of Garden City; Diane Nolan and Lora-Lynne Sharpley of Inkster; Denise Fischer and Jennifer Koss of Van Buren Township; and Patricia Bailey and Emily Wyche of Sumpter Township.

Phyllis Hinton accepted the award for her sister, Veronica Hinton of Inkster, who was in the middle of exams at Purdue University and could not make the ceremony.

The annual award honors outstanding young people whose accomplishments would otherwise go unrecognized. The recipients are picked by a citizens committee which reviewed dozens of nominations from the 21 communities in the district.

This is the first time that the committee recommended that the medal be awarded to a group, Sing-Out-Deborn, whose goal is to promote world brotherhood through the medium of music. Members of the group reside in a number of communities as well as Dearborn, including Romulus, Garden City, Inkster and Canton.

A hero remembered

The heroism of young Richard Lowe, who drowned last year while trying to save the life of another young boy, was honored recently as he was posthumously awarded a Medal of Merit by Congressman

William D. Ford (D-15th District). Marilyn McCurdy of Huron Township accepted the award for her son. Ford gives out these medals to young people in his district for outstanding accomplishment.

CAP squad aids potential college grads

The point system is based on academic records

"Romulus High School students who would like to go to college but can't afford it should consider joining the Wayne-Romulus Civil Air Patrol, open to seventh graders or those 13 up to 18 years of age."

This was the advice this week of Capt. Matthew Finlayson, Squadron CAP commander for Wayne-Romulus Squadron.

"Civil Air Patrol each year offers approximately \$41,000 in renewable scholarships and grants and they go to CAP members," he pointed out.

Some 60 CAP members, most of whom will be cadets, will be selected on a nationwide basis for the four-year scholarships and one-year grants, according to Capt. Finlayson, commander of the Wayne-Romulus squadron, a local unit of the CAP.

He explained that selections are made by a committee at CAP national headquarters in Maxwell Air Force Base, Ala. with choices being made on a point system.

The point system is based on academic records, school and CAP activities and leadership qualities.

CAP's academic scholarship and

grant program is a continuing one which began in 1965. Finlayson said the monetary value of scholarship and grants awarded since that time has passed the \$500,000 mark.

Wayne-Romulus Squadron has one cadet applying this year. She is Cadet 1st Lt. Suzy Block of Romulus, a 1977 Romulus High School graduate.

Information officer for Wayne-Romulus Squadron 16-2 is 1st Lt. Sandra L. Dubois, who may be reached at 721-2579 for more information about the scholarship programs and other CAP activities.

Keith hearing airs licensing

Proposed charges in the procedure of certifying or licensing teachers will be discussed at a public hearing in Garden City Friday night, Jan. 13.

Representative William R. Keith (D-Garden City) is scheduled to speak at O'Leary Auditorium in Garden City East High School.

Keith, the vice-chairman of the House Education Committee and chairman of a special subcommittee on teacher-licensure legislation, said that he anticipates and welcomes "an unusual amount of interest and input from teachers, administrators, officials and concerned citizens."

One bill being considered by the special subcommittee, House Bill 4242, would license teachers through a licensing commission. The commission would be made up mainly of teachers and the state Board of Education would retain the right to vote any proposals.

Michigan's largest teacher's organization, Michigan Education Association, supports the measure, arguing that it would give teachers the same voice in setting standards

that other professionals have enjoyed in the past.

However, the bill is opposed by some school administrators officials and citizen groups who contend that teaching is different from other licensed professions like doctors and lawyers.

They do not support the issue because teachers are largely public employees and parents have to send their children to school without the option to choose teachers.

Another bill, being considered by the subcommittee, House Bill 5019, would create a similar, but larger commission to make recommendations to the state board. In both instances, any change in standards or requirements for teacher would require legislative approval.

The latter proposed is more pleasing to school management spokesmen.

"We want to hear from teachers and administrators, of course; but we want to hear from others as well. This issue is very much the public's business and a full public hearing is a most appropriate part of any resolution," Keith said.

School board sets up citizens advisory panel

By JIM BRADLEY
ANP Staff Writer

The Romulus Board of Education realizes the value of input from the average citizen.

It was a citizens advisory committee which helped pass the recent millage and school officials see the value in such a group to help them on a continuing basis.

Following the recommendation of Supt. James Garfield, a Citizens Advisory Committee (CAV) has been formed by the school board.

Included in the group are parents and residents from area schools,

teachers, students and administrators.

The newly-formed group held its first meeting last week at the Board of Education office and Mrs. Sandra Langley was elected chairperson.

At the initial meeting, Garfield outlined the committee's two main areas of responsibility:

1) To recommend to the Board of Education the reinstitution of program cuts initiated in the 1976-77 school year. The committee will suggest to the board by Feb. 15, 1978 the programs to be reinstated immediately. By April 15, 1978, it will recommend programs to be reinstated in Sept. 1978.

2) To act as an advisory committee to the Board of Education on educational issues within the school district.

"The major purpose of the committee is to get lay citizen input into problems our school district faces," Garfield said.

"We see the value of having on ongoing committee to give input to the school board because there are a lot of implications in the restoration of programs."

The School Supt. was obviously very happy over passage of the 8.5 mills for a five-year period and hopes many programs can be restored.

"We're anxious to see instructional programs reinstated as near 100 percent as possible," he added.

This would include restoring a 6-hour day in grades 1-12; art, music and physical education at elementary schools; and more elective courses in grades 7-12.

The School board voted to restore \$175,000 of the \$225,000 needed for custodial services so most of custodians have been rehired. Also, all eight of the secretarial staff have returned and the two open secretary positions have not been filled, Garfield said.

"Obviously, the millage put us back to giving education to the kids and we didn't have to worry about who was going to go (be laid off)," Garfield concluded.

Mrs. Langley was very pleased with the committee's first meeting.

"We want to try to represent the community and all their views. Our committee will give the residents the opportunity to express their views through us," she said.

Mrs. Langley has been involved in studying the Romulus school situation long before the millage election and was responsible for setting up a Lansing meeting between local school officials and representatives of the State Dept. of Education.

"The committee sees their advisory capacity as a sounding board, opening lines of communication between citizens, the board, administration, teachers and students," she said.

Mrs. Langley urged citizens to contact their local school in writing if they have concerns, questions or suggestions and to include their

phone number.

"These letters will be submitted to the committee for their consideration. We are asking for your cooperation and support in this effort as we will be representing you in the long-range determination of the quality of education in Romulus," Mrs. Langley said.

Following is a list of committee members and the area they represent:

Barbara Avery (Hayti School);

Jeffrey Bassett (student); Dick Campbell and Margaret Cole (all levels); Oneita Davis (Wick); Dave Ferdon (R.E.A.); Celia Garrett (Jr. High); Dick Goode and Art McPharlin (Admin.); Carol Harri (Cory); Evelyn Hopewell (Barth); Jesse Kitchens (Hale Creek); Linda Lovasz (Gordonier); Kathy Miller (Mount Pleasant); Earle Mosely (Beverly); Joan Omarzu (R.E.A.); and Chairperson Sandy Langley (Merriman).

March vote set for recall

(Continued from Page 1)

Wayne County Intermediate School District told the recall group he would not comment on where to turn in the petitions, she said.

City Clerk Leonard Folmar told the recall group to give the recall petitions to the board secretary, Gloria Chandler, who is named in the recall petitions herself.

Although Folmar said Supt. James Garfield said he would sign a statement authorizing the turning over of the petitions to the city clerk, Mrs. Voight said the superintendent refused.

Mrs. Chandler told Folmar to have the recall group turn the petitions into the board at its next scheduled meeting. However, Mrs. Voight said, the group would be past the 90-day deadline mandated by law if it waited that long.

In the end, she said, Garfield accepted the turned-in petitions on Dec. 5 and turned them over to Folmar.

But, Mrs. Voight explained, the group's problems had only begun. The petitions were given back by the city clerk's office with 512 "discrepancies," named that had been rejected as not valid.

In checking over the names, the recall group found many which had been rejected on recall petitions for one trustee, but accepted as valid on another trustee's petitions.

A breakdown of the number of names which the group found to be alright in its opinion for the five trustees named in the recall were: Chandler, 89; Silvey, 94; Budd, 83; Christensen, 150; and Bath, 89.

Mrs. Voight said well-known names rejected on one petition, but approved on others, included Jerry Kubiak, defeated candidate for city clerk, and Mrs. Pauline Lewkowicz, wife of the former city treasurer, who was defeated for re-election.

When the group's corrected list was taken back Dec. 19 to Folmar's office and told about the irregularities, he had them

Folmar 'allowed'
57 of 89
rejected names...

rechecked and eventually okayed the bulk of those names originally rejected. Mrs. Voight said Folmar "allowed" 57 of 89 rejected names for Chandler, 68 of 89 for Budd, 55 of 94 for Silvey, 93 of 150 for Christensen, and 45 of 89 for Bath, she said.

Although she said she and her group had no quarrel to pick personally with Folmar, she felt his office staff were "negligent" in checking over the original list of names on recall petitions.

In fact, she said, some of the "corrected" petitions given back the second time by the city clerk's office were still in error.

After taking the revised list of recall petitions to the county clerk's office Dec. 21, the recall group was subsequently informed that 694 of the 1,510 names collected on each petition had been thrown out, leaving them more than 400 names short of the required minimum.

Since the recall law allows a 10-day extension in such cases, Mrs. Voight said, she and her group worked the week between the day after Christmas and New Year's Eve and collected 782 new names.

Evidently, enough of the newly-collected names were judged valid by the county clerk for the recall election to be scheduled tentatively, Mrs. Voight emphasized.

She said the recall group purposely gathered many more names than required because they felt it gave "psychological" value to the overall recall drive.

A worthy cause

Many individuals and groups worked hard this past Christmas season to help others. Included in that number was the staff at Romulus North Junior High School which decided instead of exchanging gifts they would contribute the money to a local organization. Being Christmas time the Goodfellow was chosen as a very appropriate organization. A check of \$100 was presented to Gerald

Kubiak, co-chairman of the Romulus Goodfellows, by the social committee of Romulus North Junior High. The money was contributed by teachers, principal, assistant principal, secretaries and custodians. Presenting the check to Jerry Kubiak was Mrs. Andy Wieleba (from left), Mrs. Joann Edmonds and Mrs. Cathy Uhring.—ANP photo.

Church to show 'Shiokari'

"Shiokari Pass", a new film from the producers of "The Hiding Place", will be shown at the Romulus Wesleyan Church, 37300 Goddard Road, Romulus at 6 P.M. Sunday. The one-hour color release from World Wide Pictures will have one showing.

"Shiokari Pass" is unique among World Wide Pictures productions. Although it has an English soundtrack, it was originally produced for showing to Japanese audiences. It was filmed entirely in Japan with a Japanese cast and crew, and depicts the delicate beauty of that country. The drama of the story unfolds

against a backdrop of Japan's spring blossoms, snowcapped mountains and whispering native music.

A true story, "Shiokari Pass" is based on the international best seller by Ayako Miura. Nearly two million readers have been touched by this story of the abiding love of a young couple at the turn of the century.

Credited with creating a deeper understanding of the Christian faith among the Japanese people, the film tells of the love of Nubuo for Fujiko and of his willingness to be guided by his personal faith, no matter how great the cost of commitment.

From its opening to its unexpected conclusion "Shiokari Pass" is a profound demonstration of the power of love in one life.

The Rev. James J. Roberts, pastor of the Romulus Wesleyan Church, extends an invitation to the members of the community to attend this special showing.

"Shiokari Pass" is the kind of film that will be enjoyed and remembered by the entire family," Pastor Roberts said.

There will be no admission charge for the film program. A free-will offering will be taken.

CPA association says

Uncle Sam simplifies annual tax forms

(This is the first in a series of articles prepared by the Michigan Association of Certified Public Accountants offering advice on filing 1977 income tax returns.)

As income tax time rolls around again taxpayers ask the familiar question, what's new for this year? And for many taxpayers the big news, according to the Michigan Association of Certified Public Accountants, is that Uncle Sam has attempted to simplify the tax forms, making it easier for persons whose finances are uncomplicated to prepare their own returns. Other highlights of the tax picture this year include:

- A new standard deduction, now also called "zero bracket amount";
- Increased minimum income required for filing a return;

- A new way of handling alimony payments;
- More generous deductions for job-related moving costs;
- Continuation of the general tax credit that was to expire;
- A new holding period for long-term capital gains or losses and a doubling of the amount of ordinary income that can be offset by net capital losses;

- Greater protection against the capital gains tax for the elderly when they sell their homes;

- An increase in the amount of income on which some taxpayers can defer taxes by making payments into an Individual Retirement Account, and extension to Feb. 14, 1978 of the time for making IRA payments on 1977 income.

The Michigan CPAs advise that many new rules result from those provisions of the 1976 Tax Reform Act that became effective in 1977, as well as the 1977 Tax Reduction and Simplification Act.

Taking up the changes in more detail, the CPAs note that for those who prepare their own returns, both Form 1040 and the short form, 1040A, have been simplified. The 1040A formerly filled both sides of half a sheet of paper; now it is one side of a full sheet, but several questions have been deleted.

Form 1040 has been made "linear", which means it proceeds in a straight line (without interruptions to consult page two or schedule B) and it moves logically right on through income, adjustments, deductions and exemp-

tions, tax computation, credits and tax payments, to the amount you still may owe or the refund you possibly have coming.

Alimony paid is no longer an itemized tax deduction. Now it is treated as an adjustment to adjust gross income, so it no longer matters to alimony payers whether they itemize or take the standard deduction.

The liberalizing of job-related moving cost deductions includes a provision that you can claim them, if your new job is at least 35 miles from your former home than your old job was. It used to be 50 miles. Like alimony, moving costs may be taken even, if you do not itemize.

The standard deduction is no longer a percentage of income. Now it is a flat \$2,200 for an individual filing singly, \$3,200 on a joint return. That is a \$200 decrease from the maximum for an individual, a \$400

increase on a joint return. But if your deductible expenses are anywhere near the standard deduction you still will want to figure your taxes both ways to see which is better. A study has shown that for individuals with incomes of \$14,000 and up and most married taxpayers, if deductions are about average, itemizing usually is preferable.

The general tax credit — the greater of \$35 times the number of exemptions claimed or two percent of the first \$9,000 of taxable income — has been extended at least through 1978. If your taxable income was \$9,000 or more and you have fewer than six exemptions, you will want to take the two percent. However, married individuals who file separate returns must use the \$35 times the number of exemptions claimed.

On 1977 capital gains and losses

the new holding period that spells the difference between short-term and long-term capital gains or losses is nine months, not six as formerly. Gains or losses on assets held nine months or less are short-term, whereas for assets held more than nine months, the gain or loss is long-term. This year, an asset will have to be held more than 12 months to make the sale long-term.

Another change in connection with capital losses is that the maximum amount of net capital loss that can be used to offset ordinary income in 1977 has been doubled — to \$2,000. In 1978 it goes to \$3,000.

The CPA Association also points out that on the sale of a home by the elderly (for couple, only one spouse has to be 65 or older on the date of sale), there is no tax on the capital gain on the first \$35,000 of adjusted sales price, a jump of \$15,000 in the amount protected. If the house sold

for more than \$35,000, a pro-rated amount of the gain is tax exempt. The home must have been the principal place of residence for five of the previous eight years.

The amount of income you must have before being required to file a tax return has been raised to \$2,950. However, anyone relieved of the need to file will do so anyway, if taxes have been withheld from paychecks; that is the only way to get a refund. Also, a child with income of \$750 or more from interest, etc. who can be claimed as a dependent by his parents still must file a return.

Persons having IRS-authorized Individual Retirement Accounts — or who are eligible to establish one by virtue of not actively participating in a conventional pension or profit-sharing plan during the year — can set aside, tax deferred, as

'Snow line' opens

The director of the Michigan Department of Commerce, Keith Molin, has announced that the Travel Bureau's toll free "snow lines" will be manned from 8 a.m. to 6 p.m. Monday through Wednesday, 8 a.m. to 7 p.m. Thursday and Friday and 8 a.m. to 1 p.m. Saturday 8 a.m. to 1 p.m. running through March 25.

"This extended service enables non-resident winter sports enthusiasts in different time zones to obtain the latest Michigan snow conditions and winter activity information during normal working hours. It also gives Michigan residents greater access to their Travel Bureau after regular business hours," according to Jack S. Wilson, Travel Bureau director.

"Snow line" callers can obtain the latest ski and snowmobile conditions, recreational activities taking place around the state, general weather and winter fishing information.

"Michigan is one of the nation's favorite warm weather vacation states, but when

To help pay bills

Heating Assistance Act: What to expect

One state representative is letting senior citizens and other eligible residents know just what they can look forward to under the Home Heating Assistance Bill, signed into law in late 1977.

"This act comes just in time," said State Rep. Robert Law (R-36th District). "It will help make this winter a little warmer for many people who would have otherwise had to worry about how they could manage to keep the heat turned on during these cold months of the year."

Law pointed out that application forms for the heating assistance will not be available until later this month.

"But the payments under this program can be applied to past, present or future heating bills," he said. "Although they're intended primarily to cover heating costs from December 1977, through February 1978."

"The Home Heating Assistance Act provides for a basic payment of \$130 to low-income citizens," Law noted. "Ninety percent of that is to cover heating energy costs and 10 percent for electrical energy costs. These payments will be made directly to the energy provider, usually a public utility, except in the case of fuel oil. These payments would have to be co-endorsed by both the applicant and the provider."

The amount provided is keyed to applicants' household income as defined by the Michigan Income Tax statute. Under this law, household income includes salaries, wages, tips; dividends and interest; pension benefits; alimony and child support; veterans' disability and pension benefits; worker's compensation and unemployment benefits; and all

public assistance payments; less health and accident insurance premiums paid by the persons involved.

Excluded are those persons with liquid assets of more than \$15,000, these being defined as a savings or checking account, plus stocks and bonds. In this case, a house is not a liquid asset.

The payments take into consideration the maximum household income of the applicant who is responsible for paying the heating bills and an extra amount of income for every other household member up to six.

If the income is not more than \$2,000, plus \$650 for each additional member, the payment will be \$130, with \$70 for additional consumption, if needed. For a \$2,400 income, the allowance is \$750 per extra member and \$50 for additional consumption.

For \$2,700 income the extras are \$850 per member and \$30 for additional consumption, for \$3,000, \$950 and \$20 and for \$3,700, \$1,200 for each additional family member and a payment of only \$120.

Thus, if a three-member household had a combined income of \$3,100, they would qualify for the maximum payment. If a two-member household had the same income, they would qualify for the second level of payments, or \$130 plus \$50.

One- or two-member households with at least one senior citizen, who is directly responsible for heating bills, in which the total household income is between \$4,900 and \$7,000, qualify for a flat payment of \$100. Seniors are those 65 or older.

A separate schedule is provided for those who rent, whose heat is provided entirely by electricity and who must pay the electric bill themselves. In the five classes

above, the amounts are \$160, \$140, \$120, \$100, and \$80 respectively. Total payments for heating

assistance under state and federal programs are limited to a combined total of \$200 per household.

More information can be obtained from any local office of the Department of Social Services, or

from Rep. Law's Westland office (422-0750) and Lansing office (373-3816).

Established in 1886, The Romulus Roman, the official newspaper serving the city of Romulus, is a weekly newspaper published each Wednesday by the Associated Newspapers, Inc., 405 Main St., Belleville, Mich. 48111.

The central business office is located at 35540 Michigan Ave., West., Wayne., Mich. 48184. Office hours in Belleville: Monday, through Friday 8:30 a.m. to 4:30 p.m. Phone: 941-1275 for Romulus, area 313. Central office hours Monday through Friday: 8:00 A.M. to 5:00 P.M. Phone 729-4000.

Classified advertising calls at 729-3300 and circulation calls at 729-4000 during central office business hours.

Subscription rates by mail: second class postage paid at Belleville, Mich. 48111, \$12 per year in Wayne County, \$14 per year outside of Wayne County. Carrier delivery \$1 per month, collected on a monthly basis.

Associated Newspapers, Inc., retains ownership of local news items and advertising copy which it helps create or reproduce in its columns and such cannot be reproduced by others without permission.

In addition the The Romulus Roman, Associated Newspapers also publishes the Westland Eagle, Wayne Eagle, Belleville Enterprise and the Inkster Ledger-Star.

Editorial opinions

Power and not professionalism is the goal

Current hearings being held throughout this area relative to proposed legislation that would change the existing procedures for the licensing of the state's school teachers, could prove to be just a power grab by the Michigan Education Association (MEA).

The pending legislation, HB 4242, proposes to license teachers through a licensing commission that would contain a majority of teachers on its board.

This new legislation's chief proponent is the MEA. Spokesmen for that group contend that the bill would give teachers the same voice in setting standards for their profession that other professionals have. But other interested citizens as well as the Michigan Federation of Teachers, (MFT), strongly oppose adoption of the new legislation. The MFT's position is that current licensing procedures are adequate, and that the new legislation is unnecessary.

We agree with the MFT. There is an inherent risk associated with a professional organization having control of the licensing of its own members.

One look at the American Medical Association (AMA), and that group's apparent reluctance to deal with its members who may be guilty of malpractice, is sufficient to exemplify the risks of both self policing and self-licensing of professional groups.

But we feel that the bottom line in the MEA's support of the pending legislation, has more to do with power, than it does with professionalism, and over the past years the MEA has mishandled the clout that it already has.

We see no benefit for the citizens of Michigan resulting from passage of HB 4242. Therefore we urge the legislature to reject this power grab, and to send the MEA back to the schools where they belong.

The balance of power should be maintained

The National Right to Work Committee, a coalition of employees and employers headquartered in Washington D.C., has begun a nationwide campaign in opposition to legislation now being considered in the U.S. Senate.

Target of the NRWC, is House bill H.R. 8410 and Senate counterpart S. 1883.

The legislation, dubbed 'labor reform' by its chief proponents, the nation's labor unions, and 'push button unionism' by its detractors, would greatly change the present union management relationship.

Under provisions of the new legislation, thousands of workers would be forced to join unions following the abolition of individual state right to work laws, and according to the NRWC, "blackmail employees into signing compulsory unionism contracts."

While we would be the first to admit that the creation of labor unions has

done more to improve the 'lot' of the workingman than any other single innovation, we question the ultimate results of this new legislation.

We feel that while the right of a worker to join a union should be protected, we also feel that worker's right not to join that same union is also worthy of protection.

It is an accepted fact that ultimate power corrupts. We fear that one of the spin-offs of the new legislation would be to further increase union clout creating a power situation that would certainly improve the chances that that power would be misused.

Democracy is a compromise. While it is impossible to please everyone all of the time, it is possible to please most of the people most of the time.

It is a one sided conversation when the other guy has a club and you don't, but communications must be established when you both have a 'big stick'.

Editor's note:

This page in the Associated Newspapers is being made available to the residents of the communities we serve.

Anyone of any age is invited to submit an open letter to their community or to the editor of Associated Newspapers.

We will publish letters on any subject. If you feel you have a plan for solving a city problem, or wish to comment on someone else's plan, this space is being reserved for you.

If you or your group would like to address the community at large, or just an individual, this space is reserved for you.

If you think you can do it better, cheaper, faster, or with more flair, this is the place to tell everyone about it.

You are invited to send your opinions on events, or items of public interest, to the editor of Associated Newspapers, 35540 Michigan Avenue, Wayne 48184.

Names will be withheld from letters published only for very good reason. The reason must be included in the letter.

The editor reserves the right to edit and/or condense letters where necessary.

Associated Newspapers has just given you a public voice. If a story is worth telling to your neighbor, why not tell it to your whole community.

ED.

Editor's Log

Dog obedience \$6

Master obedience \$30

The seven-month-old mixed Labrador retriever had been driving Carla Toarmina crazy. Between the dog and two-year-old Frankie, she had more than her hands full.

A month earlier, the Wayne-Westland School had sent out a list of adult education courses that the system was going to be offering in the coming semester. On that list, Carla thought she had seen a possible solution to at least one of her two problems.

A 10-week course on dog obedience, and it only cost \$6.

She would go over to Wayne Memorial High that night and register.

It had been a typical day for Dr. Paul Armstrong. For the past three years, he and his wife, Mary, also a nurse, had been ministering to the needs of growing number of patients who had found his general practice to their liking.

Opening up the office at 9 a.m., the doctor and his wife would prepare for the coming day, getting equipment set up, checking on the appointments for the day and investigating the parking lot. It had cost him more than \$15,000 to develop, and they would check to see if the no parking signs were still standing.

Dr. Armstrong's office is located at 34210 Glenwood directly across from Wayne Memorial High, and the WMHS students often look advantage of his parking space for the storing of their autos during class.

In spite of his frequent appeals to the school officials, and their frequent reminders to the students, they continued to park in his office parking lot, often to the exclusion of the doctor's patients.

The situation had gotten out of hand, and when the students were informed by the doctor's staff that their cars would be towed away if they continued to ignore his signs, some of them responded by tearing

them down.

But, the situation would not be resolved until the doctor was informed by the Westland police that he had the right to have the offenders auto towed from the lot. He reluctantly conceded that he would have to follow that advice, drastic as it appeared.

John Barnett, owner of John and Dud's Towing, was relaxing after his normally busy day.

Barnett, 33, a native of West Virginia, had achieved a certain measure of success in the towing business. Working 14 to 16 hour days, he had been able to build his business, from the one-man, one-truck operation that he had started some five years earlier, to his current fleet of 13 trucks and drivers.

On this evening, Barnett was working in the garage, when the phone rang. John's mother, who helped out in the office, took the call from Dr. Armstrong's office. "There are three cars blocking the lot again," Mary Armstrong said. "Two of the patients cannot get out of the driveway, could you come over and give us a hand."

It was by now an old story for the Barnetts. Since the first call by the doctor many months ago, John Barnett had made the drive into Wayne many times.

Arriving at Wayne Memorial High, Carla and young Frankie would not find a parking place to leave the car while Carla ran into the school to register for the dog obedience course.

It appears that everyone in Wayne and Westland was registering for classes that night, and Carla could find only one spot to park in. She pulled up and stopped under the sign in Dr. Armstrong's lot. The office looked deserted, and several other cars were also parked there; besides, she would only be a few minutes she thought.

By DENNIS FASSETT
Managing Editor

Five minutes later, John Barnett pulled up and started to work. John didn't like hauling the cars away, but it was his job, and the owners should have been more considerate of Dr. Armstrong's patients anyway.

Carla and Frankie left the school about 20 minutes later. It was cold so Carla picked up Frankie and hurried to the spot where she had left the car. But, the area under the 'No Parking' Violators will be towed away sign was vacant. Thinking that her car had been stolen, Carla and Frankie went back into the school and she called her husband, Peter.

At the Wayne police station, the Toarmina's were told that the doctor's parking lot was located in Westland and not Wayne. Using the public phone at the Wayne station, Peter Toarmina called the Westland Police Department.

"Your car has been towed from the doctor's lot," they were told. Since this was also an old story for the Westland police, they gave Toarmina John Barnett's phone number.

The dog was again driving Carla crazy, but at least now she knew that it would only be a matter of time before the animal was properly trained. Thanks to the Wayne-Westland schools and their \$6 dog obedience course, or more correctly the \$36 course.

You see, the bill for the towing of the family car that had been improperly parked for just a moment, had been \$30.

The following evening, John Barnett was working his fleet of trucks when the phone rang. "This is Dr. Armstrong's office," the voice said over the phone. "Here we go again," thought Barnett.

As Barnett hooked up the car for towing he thought to himself, "This is one heck of a way to make a living!"

Reflections

I'm running away from home

The other morning I was looking at the comic section when a cartoon leaped out and tickled my funny bone. It showed a little boy coming through the door with a knapsack on his back saying, "I only came back because I had to go to the bathroom."

"I don't see what is so funny about that," my kid said as I rolled off my chair and collapsed in a laughing heap under the piano bench.

"It reminds me of you," I told him. "Remember the time you ran away from home and came back for a can of beans?"

"I was hungry," he said. "But after I gave you the can you still wouldn't go, although you wouldn't take off your knapsack."

"It was dark outside, and George (our dog) wouldn't go with me," he answered. "But I went the next morning."

"For fifteen minutes," I howled. "And why did you come back?"

"I wet my pants..." he said, ducking his head in George's back.

"That's what I mean," I laughed. "This cartoon kid reminds me of you."

"I still don't see what's so funny about it," he muttered and went out and knocked his sister off her bicycle.

Around 5:30 that afternoon, the stew was being dipped onto the plates when the front door flew open and a dirty little kid came running in.

"Grandma," he shouted. "I'm hungry."

"What's that thing you have in your

hands," his teenage aunt asked. "That's my suitcase, cause I'm running away," he said as he grabbed a plate of stew and ate as if he'd never been home in years.

"Big deal," one of his uncles said. "You've run away from home...a whole two blocks."

"Yep," he said and ducked his head back in the stew.

"How come, if you're running away from home, you ran right over to our house?" his young aunt asked.

"Cause I knew someone would take me home," he answered, making himself a peanut butter sandwich and drinking a quart of milk. "And I'm tired from walking."

Health Beat

"Holiday" in Greenwood Springs

My car radio was tuned to WJR and I was listening to the three o'clock news. The newscaster reported that authorities were still looking for an alleged murderer who had recently broken out of a Colorado jail. It was the same man's second breakout in about one year, and this time the escape had been effected from a lock-up in Greenwood Springs, Colorado. It was the mention of Greenwood Springs which stirred some old memories, and thus spawned this column.

I've been to Greenwood Springs, and I know some interesting things about that town.

Many years ago when I was stationed in Denver with the U.S. Air Force, it was my good fortune to meet a young lady from Minnesota who had come West to see how the rest of the world lived. I further had the good sense to marry her, and we lived two delightful years in Denver — a city we both still feel ranks with the best in the country.

In many respects, Denver is much like most big cities. It has exclusive areas for the monied swells, average areas for Joe Worker to plod down in each night after work, and alas it has a skid row.

When we lived there, skid row was located downtown about one mile North of the magnificent State Capitol Building. One of the streets comprising the row (and I suppose it still is) was Larimer Street.

Now Larimer Street, like its counterparts in countless cities throughout the world, was a collection of shabby hotels, cheap bars, flea bag strip joints, and poor souls who had given up and come there to drink themselves to death.

But I was soon to learn that Larimer Street had an interesting history. The story was told to me by an old-time cow puncher, and the history I've been able to read seems to confirm its accuracy.

One Thursday afternoon in the late 19th century, a tubercular dentist rode into town and quickly arranged a poker game in a Larimer Street saloon. The dentist, it turned out, was on the run from a posse in Arizona. He was running because he was wanted for his participation in a vicious shoot-out in the town of Tombstone.

As the poker game ran on and the dentist continued to win almost every pot, one frustrated loser accused the dentist of cheating.

The odds are that he probably was cheating. Still, in the code of the West, to accuse a man of cheating was to invite disaster.

The dentist drew a knife and killed his accuser. He raced out the front door, stole a horse, and headed South — a group of irate and drunken cowboys hard on his heels.

The chase lead to Greenwood Springs where the Denver gang at long last cap-

tured their quarry.

Justice was quick and irrevocable in those days. No one saw any need for a trial ("Hell, we seen him do it," said one of the avenging mob.) The dentist was promptly strung up from a convenient oak tree.

And thus silenced for all time the legendary and infamous Doc Holiday. What was Holiday running from in Arizona? Well, Doc Holiday in one of his more playful moods had allied himself with a part-time lawman and participated in a violent shooting in which good guys and bad guys were killed with equal dispassion.

I wrote part-time lawman, because when this man was not wearing his badge, he was a card dealer (Faro) and a greeter in a bordello. I'm sure you remember the name of the lawman: it was Wyatt Earp. Earp with three of his brothers plus Holiday started the war made famous in many movies.

We all know it today as the gunfight at the O.K. Corral. If you ever get to Tombstone, you can see the famous carnage acted out for tourists during the summer months.

It's a long way from Tombstone to Larimer Street in Denver to Michigan Avenue in Detroit.

But it's nice to learn that Greenwood Springs is still fighting for its place in the sun.

Bald Eagle Speaks

Lothar's victory over odds

By BOB AMEEN

Nearly eight weeks ago the grim specter of death breathed heavily on Lothar Konietzko, chief photographer for Associated Newspapers.

Coming into the office from an assignment late on the afternoon of Nov. 18, he was traveling west on Michigan Avenue, just crossing Elizabeth Avenue, when what every motorist dreads happened—a blinding, sickening crash of twisted metal.

His compact red Volkswagen, known to hundreds of ANP readers in the area, was hit on the left side by a full-sized car going north on Elizabeth. A second or two before the accident, Lothar saw the large car approaching, knew he was going to be hit, and jumped as far to the right as he could inside the little German car.

That extra effort probably saved his life. When he was taken to Ann Arbor Hospital, Lothar was given about one out of 10 chances to survive, having suffered eight broken ribs on his left side and a broken thigh bone, shattered in seven places. In addition, he received bruises and cuts to the right side of his face and a bruised right knee.

Doctors rushed him into the operating room as quickly as possible to surgically repair his left thigh bone. At first, it was feared the hip joint or socket would have to be replaced with an artificial substitute, but fortunately that ordeal was spared the broken, white-faced and almost lifeless figure stretched out on the operating table.

Doctors were still faced with a tough problem while they worked frantically over the 52-year-old photographer—his heart rate was racing dangerously out of control. Medication helped bring it down to a half-safe level, but it was days before his heart began to beat more normally.

Further tests and X-rays disclosed that Lothar's lungs and his heart had been badly bruised in the auto mishap. His little Volkswagen was hit so hard by the larger vehicle that the impact had welded the two cars together. Rescuers worked feverishly for 20 minutes before they could extricate Lothar from the interior of his car.

Although he had driven Volkswagens on his job assignments with ANP for most of the 25 years he has been chief photographer, he says he will be driving a bigger car when he returns to work.

(Statistics gathered over the last few years have shown that drivers of compact cars are three times as likely to be injured or killed in an auto accident as drivers of a full-sized vehicle.)

During his five weeks in the hospital, Lothar was deluged with cards, letters, flowers and baskets of fruit from a public which showed how much it loved the tall, slim native-born German who befriended senior citizens and children alike.

As a close friend who has known Lothar for the last nine years, I felt the outpouring of love, affection and caring directed toward him helped immeasurably in the initial recovery from his injuries.

A veritable stickler for perfection at work, sometimes to the point of driving his coworkers up the wall, out on assignment he was just the opposite, exerting the utmost kindness to all concerned.

Whether it was a tiny tot or an elderly lady whom he was to photograph, Lothar never stopped kidding and joking in his German accent as he strove to get just the right mood in his subject and just the right position to suit the particular picture he was after.

His desire for professional perfection resulted in the winning of 43 state and national awards for excellent, quality photographs, especially of outdoor animal and plant life in the no-rent reaches of Michigan.

During the first week of his hospital stay, Lothar's life hung in the balance, a balance so delicate that modern electronic instruments monitored his vital functions constantly.

As a frequent visitor, almost daily at the onset, I knew Lothar was going to make it when he began griping about his room, his bed and several other ordinary things which would not have bothered anyone else but him. From then on, it was only a matter of time until his return to the world of the living.

Many times since the accident, Lothar wished that he were dead. The pain from his chest and his left leg nagged at him unmercifully, even after he was allowed to return home.

Although medication helped ease his suffering, a stomachache easily upset (from an earlier ulcer forced him to abandon its use because of the nausea and discomfort it generated).

In addition, the surgeon who put Lothar's leg back together again, forbid him to put any weight on it for many weeks to come.

Lying on his back most of the time, except for short periods when he hobbles around on crutches, Lothar anxiously awaits the day the doctor will give him the okay to start walking, or try to start walking, on the injured leg.

He knows he will have to undergo many hours of physical therapy before he can even think of recovering the use of his left leg. But, what goes through his mind is just how well he will be able to get around when the doctor gives him that final pronouncement.

Lothar knows he will have a slight limp and that he may have to use a cane for a while, but he is no stranger to fear and that feeling of death knocking at one's door.

During World War II, Lothar served as a pilot for the German air force on the eastern front, narrowly escaping death several times.

After serving in the air force, Lothar received a diploma in forestry and was employed as a forester in the Ukraine. In fact, he was the fourth generation in his family to serve Germany in that occupation.

Those who know Lothar well, and they are many, will attest to his intense love for his adopted land. Five years after coming to America in 1954, he became a naturalized citizen. Since working at ANP, he has traveled to many foreign lands, including Russia.

His good-natured talks before fraternal, service and civic clubs in ANP land have endeared him to their members as he glibly tells of experiences and sights in Moscow, Jamaica or wherever. His speeches always are illustrated by colored slides he has taken with his trusty Leica 35 mm. camera.

After he had taken root in his new home, Lothar founded and served as president and vice-president of the Michigan Press Photographers Association. He also joined the Detroit Press Club and the National Press Photographers Association.

Lothar is successfully recovering at home with the help of part-time professional help. Being a German, he is naturally as stubborn as a mule, wanting to get around and do for himself as much as possible.

Those of his friends who wish to drop him a line may write to him at Associated Newspapers, 35540 Michigan Ave., Wayne, Michigan 48184. Correspondence will be relayed to him at his home in Wayne.

As had often been quoted, "Life is for the living". Despite his stubbornness, pain and the endless delay of recovery, I'm sure Lothar is glad to be alive. His friends are glad he is.

From the State House

Declining enrollment creates new problems

ROBERT LAW
State Representative
36th District

The biggest problem facing public education in Michigan is declining enrollments. I am most familiar with this problem because of the devastating impact declining enrollments have had on the Livonia School District, a school district I represent.

In recent years, the great percentage of Michigan citizens lived in school districts that had increasing enrollments. Declining enrollments were limited to large urban schools. However, during the past two years, and for the next twenty years, declining enrollments will affect all parts of the state. Almost every taxpayer will have to wrestle with the problem of decreasing numbers of students, but increasing costs.

The problem in Michigan was recently highlighted by a special study done by the Michigan State Board of Education. I highly recommend it for anyone interested in the issue. The Board's report highlights the crisis facing Michigan.

During the next decade, the secondary schools will lose nearly 20 percent of their membership. This percentage translates into a loss of 184,700 students. The drop in enrollment is already being experienced in the elementary schools. The average decline is presently slightly over 2 percent per year. In the next ten years, the decline will be over 21 percent, amounting to 109,000 fewer students.

The Livonia Public Schools have been particularly hard hit. Their situation dramatizes the situation that will be faced by many schools during the next ten years.

Livonia has lost 26 percent of their membership count since the 1971-72 school year. During these past seven years, the total enrollment dropped from a high of 38,799 to a low of 28,316 students.

Wayne-Westland is also experiencing a decline and are presently studying the situation.

The drop in enrollment has had a devastating impact on educational programs. The neophyte argues that less students mean less cost. Unfortunately, this is not totally true.

The cost for running the Livonia Public Schools has increased at an annual rate of 6.6 percent. This is in spite of cutbacks in teachers, closing school buildings, and reducing administrative costs. For example, Livonia has released 368 teachers, 50 non-teacher professionals, over 50 other employees, and has closed six schools.

The net impact of declining enrollment has been that educational programming has to be reduced. How does this happen?

First, most educators know that the loss of pupils does not automatically translate into less money needed. For example, a reduction in the teaching force must be accomplished by "pink-slipping" the newest teachers, or the teachers with the least seniority. They typically are the lowest paid. In Livonia, the pink-slipping of 368 teachers has raised the "average teacher salary considerably." In turn, this increases the cost per pupil.

The loss of students does not mean a one-to-one reduction in administrative support services. It takes a considerable loss of students to reduce the number of principals that are needed, or to close a school building.

Second, the state school aid formula hurts schools with declining enrollments. Most educators are aware of the basic membership formula. The state guarantees the yield of a mill. The guarantee is paid according to the number of students enrolled on the fourth Friday count. For 1977-78, the formula guarantees \$160 plus \$40 per mill up to 30 mills per pupil.

This formula works to the advantage of schools that are increasing their enrollments. However, every drop in

enrollment costs the local school district state aid. For example, Livonia levies over 30 mills. Consequently, a loss of one student costs Livonia over \$1,360 in state aid (\$40 times 30 plus \$160).

The reason for the loss of the entire gross allowance (\$1,360) is due to how the formula operates. The guarantee includes money raised locally. However, when the number of pupils decreases, the SEV per pupil increases. Thus, the combined increase in SEV-pupil and state aid being calculated on the number of pupils, the net result is a loss of \$1,360 per pupil.

According to most studies on the effect of declining enrollment on educational programming, local schools can reduce cost to pick up 40 percent of the loss of revenue. The remaining 60 percent cuts into educational services.

The pressing question for 1978 and for the next ten years is how to deal with this 60 percent. There are three solutions, basically. One is to allow local districts to reduce services to pupils. The second solution is to have the state increase state aid to make up the difference. The third method is to rely on the federal government to make up the loss of revenue.

It is my opinion that the State of Michigan should make every effort to pick up the cost of this additional 60 percent. This can be done in any number of ways. One method is by guaranteeing a specific pay-out for each loss in enrollment. For example, we could calculate each loss of enrollment as .6 of a pupil for purposes of state aid. Whichever method is used, the main thing is a commitment to deal with the problem.

Fire destroyed more than a house

To the Editor:
Well today to you was just another day. To me and the Potter family it was shocking to hear about the fire that ripped through the beautiful, I should say (once beautiful home).

Yes, there were many memories I shall never forget. Some, others never knew were there; such as the secret drawers, one under the beautiful front stairway, one on the second floor, and also one in the attic.

No place such as the Cady home, and our home can ever be replaced.

Why were the hoodlums allowed to enter such a nice peaceful place, why?

A few weeks ago as I went by I saw the screen doors ripped off, screens torn off the windows, doors hanging on broken hinge. I thought that I would rather just see an empty lot with perhaps some sod, not the mudhole that was left at the Cady home on Main and Third street.

I do not know why the city of Belleville ever let it go as it was. Not to be repaired,

or once in a while checked. If repairs were being made on the inside no one knew about it. The police were there many times looking for someone who was not supposed to be living there.

The City of Plymouth is always restoring buildings. But all Belleville can do is to bulldoze them down or let them burn up. It is a shame that folks don't care. There are not many land marks left in our city, and I for one think it is terrible.

There are some places in the city that should be destroyed, but not the beautiful little depot or home on Belleville Lake.

Do you really care?
The memories will linger of ones who care, although sometimes I saw it and wished the house wasn't there; As the way the place was kept to the city should have been a disgrace, I know there will never be another that could ever take the place.

I am deeply hurt,
Aldine Potter,
Belleville

For youths 12-15 years

Sheriff's Department offers boating class

Untrained youngsters 12 through 15 years old can take the first step toward "making the scene" on Michigan waterways by signing up now for a free pleasure boating

course to be held during the winter in Wayne County. Wayne County Sheriff William Lucas pointed out that youth in this age group must successfully com-

plete the course for beginning boaters before they can operate motorboats of six horsepower or more without adult supervision. He added that while the accent is

on training youngsters, local boaters of all ages are welcome to attend the pleasure boating course, which has been worked up by the Department of Natural Resources' Marine Safety Division.

Those interested in making their boating safer and more fun filled next season may enroll at their local school. They also may join the course roster by calling Reiman or Officer Gerald Boyne, Wayne County Marine Division, at 721-2222, Ex. 264.

Sheriff Lucas emphasized that there is no charge for the course. Everyone who passes will receive a pocket-size certificate which each "graduate" must carry while operating his or her boat, and a safe Boating Patch to be worn on a jack or swim suit.

Boating classes are scheduled for Romulus Senior High School, 9650 Wayne Road, Romulus, from 7 to 9 p.m. Thursday and Jan. 19, 26 and 31. In Westland the classes will be at Marshall Junior High School 35100 Bayview, from 4 to 6 p.m. Feb. 7, 14, 21 and 28, while instruction at Plymouth-Canton High School, 8415

Canton Center Road, Canton Township will be from 4 to 6 p.m. March 1, 8, 15 and 22. And Fisher

Elementary School, located at 466 N. John Daly, Inkster, will be from 7 to 9 p.m. March 13, 16, 20 and 23.

Mathia heads PCHA management system

Livonia resident Elmer J. Mathia has been appointed director of management systems and financial planning for Peoples Community Hospital Authority (PCHA), according to its executive director John J. Freysinger.

Mathia holds a bachelor of science degree in accounting from Detroit Institute of Technology. He was licensed as a certified public ac-

countant in 1952.

He is a member of the American Institute of CPAs, Michigan Association of CPAs, and the Hospital Financial Management Association.

From 1947 to 1958 he served as senior accountant with White, Bower & Prevo CPAs. In 1958 he joined the PCHA as controller. He left PCHA in 1971 to become vice-president of fiscal affairs at the Pontiac General Hospital.

At Pontiac he developed and implemented automated budgeting systems and departmental management reports; designed automated third-party revenue logs and invoice preparation; and directed the development and implementation of pre-admission testing programs.

In his new position at the PCHA Central Office, Mathia will be responsible for over-all data management and financial systems

The rampaging typhoon that smashed Guam on May 22, 1976 isn't on the front pages anymore. But it will be a long time before the people of Guam forget it. And it will be a long time before Red Cross forgets it. Because we were there, too. Believe it or not, Guam was only one of 30,000 disasters in the last 12 months where we were called on for major help.

Which is the reason our disaster funds are disastously low. And an important reason why we need your continued support. Help us. Because the things we do really help. In your own neighborhood. And across America. And the world.

Guam counted on us.

We're counting on you.

Red Cross. The Good Neighbor.

VAN BUREN PUBLIC SCHOOLS ADVERTISEMENT FOR BIDS

JOB No. 76011

Project Number EDA Project Number 06-51-01386
Van Buren Public Schools

Separate sealed bids for Bid Package 7A — Library-Media Center
Bid Package 7B — Administrative-Instructional Equipment for Van Buren Public Schools — Belleville High School Renovation Project will be received by Van Buren Public Schools at the offices of Board of Education until 3:00 o'clock P.M., Wednesday, January 25, 1978, and then at said office publicly opened and read aloud. The Information for Bidders, Form of Bid, Form of Contract, Plans, Specifications, and Forms of Bid Bond, Performance and Payment Bond, and other contract documents may be examined at the following:

Van Buren Public Schools, Board of Education Office
555 West Columbia, Belleville, Michigan 48111

Copies may be obtained at the office of Douglas Brown located at Board of Education Office, 555 West Columbia, Belleville, Michigan 48111.

The owner reserves the right to waive any informalities or to reject any or all bids. Each bidder must deposit with his bid, security in the amount, form and subject to the conditions provided in the Information for Bidders. Attention of bidders is particularly called to the requirements as to conditions of employment to be observed and minimum wage rates to be paid under the contract.

No bidder may withdraw his bid within 30 days after the actual date of the opening thereof.

January 3, 1978

Douglas D. Brown, Project Coordinator
Van Buren Public Schools

CITY OF ROMULUS MINUTES OF THE SPECIAL MEETING OF THE ROMULUS CITY COUNCIL HELD DECEMBER 20, 1977

The meeting was called to order at 7:40 p.m. by Mayor Pro Tem Banks.

Attendance at Roll Call:

Present: Raspberry, Canejo, Block, McAnally, Cantrell, Carter, Banks.
Absent: None
Excused: None.

Administrative Officials in Attendance:

William M. Oakley, Mayor
Leonard J. Folmar, Clerk

1. Motion by Raspberry, supported by Cantrell, to approve the agenda as amended.

AGENDA

Pledge of allegiance

Roll Call

1. Agenda

*2. Vacation of Harrison Road

3. 1977-78 Budget

4. Discussion

5. Adjournment

Roll call vote showing: Ayes - Raspberry Canejo, Block, McAnally, Cantrell Carter, Banks. Nays - None. Motion carried unanimously.

77-760

2. Motion by Raspberry, supported by McAnally, to install Dead End signs and barricades across Harrison Road, 405 feet south of the center line of Ecorse Road. Roll call vote showing: Ayes - Raspberry, Carter, Cantrell, Banks. Nays - Canejo, Block. Abstain - McAnally. Motion carried.*

77-761

3. Motion by Raspberry, supported by Cantrell, to concur with Finance Director, Larry Moore, and approve payment of retroactive pay for all non-union personnel for all hours worked from July 1, 1977 to December 20, 1977, not to include cost-of-living for salaried personnel. Roll call vote showing: Ayes - Raspberry, McAnally, Banks, Cantrell. Nays - Canejo, Block. Abstain - Carter. Motion carried.

77-762

Motion by Block, supported by Carter, to give Notice of Intent to transfer funds as follows:

Roll call vote on Resolution 77-762 showing: Ayes - Block, Carter Cantrell, Banks. Nays - McAnally, Canejo, Raspberry. Motion carried.

Motion by McAnally, supported by Carter, to adjourn meeting. Roll call vote showing: Ayes - Raspberry, Block, Canejo, McAnally, Carter, Cantrell, Banks. Nays - None. Motion carried unanimously.

Respectfully submitted,
Leonard J. Folmar, Clerk
City of Romulus

I, Leonard J. Folmar, Clerk for the City of Romulus, do hereby certify that the foregoing is a true copy of the Minutes of the Special Meeting of the Romulus City Council held December 20, 1977.

Leonard J. Folmar, Clerk
City of Romulus

SUMPTER TOWNSHIP BOARD MINUTES

Special Meeting
Public Hearing
January 3, 1978

Meeting opened with the pledge of allegiance to the flag at 7:14 p.m. Supervisor Demski presiding.

Roll call found present: Supervisor Demski, Clerk Reeves, Treasurer Banotai and Trustees: Folks, Overman and Williams. Absent: Hall. Also present were Township Attorney Hess, Deputy Clerk Sienko and Robert Mitchell from FmHA. Approximately 150 citizens were in attendance.

Motion by Williams, supported by Overman, to accept agenda with the addition of Item No. 4 to call for a recess in the meeting for a Public Hearing. Motion carried unanimously.

Motion by Williams, supported by Overman, to recess Special Meeting to open Public Hearing with Mr. Robert Mitchell to have floor. Motion carried unanimously.

Robert Mitchell gave a resume on himself as a way of introduction. He is a Director of FmHA. The reason for convening the Special Meeting was to have a legal Public Hearing to explain why he issued a suspension on the Million dollar loan and Million dollar grant Water Extension. He is a new appointee by President Carter, being appointed two months ago. Phase III is now in its final stage of approval. His reason for being here is that he is new to the program and wanted to meet with the Township Board and Township Citizens to explain 'why the suspension and why it is critical.' He is concerned about the 1977-78 water program and the people in the Township that have to carry water. He has talked with Mr. Brown, of Wayne County Health Department and Mr. Lewis and others and the solution is to get more money in order to meet the problem. He is willing to go on record to go to Michigan for more funds that will go to Sumpter Township. He is asking the Township to pass a resolution saying that we will submit a new application for water to go to the most disadvantaged in the Township. He will then lift the suspension on Phase III. Beginning this evening the process would start on a new Million dollar loan and Million dollar grant, committing themselves, the Board, the money go to the most disadvantaged. A survey of the Township will be conducted to determine where the water lines should go.

At this time, James Brown asked for the floor to explain his views as to the location of water lines in Phase III. Mr. Robert Mitchell told Mr. Brown he had several individuals to introduce before he would start with his questions and answers. At this time several persons were introduced. Bob Abbott and Larry Smith from FmHA, Representative Ed. Mahalak, Dr. Morton, Edgar Harris and Glenn Brown. After the introductions were made and Glenn Brown gave his report, James Brown was given the floor.

Mr. Mitchell stated that one of the problems in the Township, with the present water lines, is the Tap-in Fee. FmHA has a program which can be used to help people pay the tap-in fee. Depending on income, money can be borrowed from FmHA with varying degrees of interest rates, from 1 percent to 8 percent, with as long as 10 years to repay the loan. At the present time the closest office is in Adrian, however, a temporary office, in the Township, will be set up on a one or two day a week basis for a month with applications available to aid those eligible. Larry Smith commented those who cannot pay 1 percent loan on a 10 year pay-back period and those 62 years of age or older may be eligible for an outright grant without any paying back. Those with incomes of \$10,000 or less could qualify for the 1 percent loan. This is available for all water expansions. At this point Mrs. Bradford and Mr. Humphreys were acknowledged. Robert Mitchell explained that present application that has been filed is in the final stages of procedure and was asking those present why they felt that we should not go ahead with that plan. Also, who has been designated to say yes to some and no to others. The Township Board will make a commitment to aid the most disadvantaged with the new application, not to say that the Board made a mistake in preparing the present application. The purpose of FmHA is to help the low and moderate income families. Mr. Glenn Brown will help determine where the need exists. The Board asked for the aid of the Wayne County Health Department five years ago in investigating the wells and septic systems in the Township. In the report is a map showing every well that is contaminated.

At this time Mr. Mitchell recognized Rev. Meeks, E. Crouch, F. Nitz, Ed. Mahalak, J. Lambert, Mr. Caja and Mr. Grasty. Mr. Grasty asked questions regarding funding that were answered by Mr. Price Kimbrough. Additional citizens that were recognized were E. Pringle, R. Krajewski, E. Wyche and F. Stepaniak. Also A. Mixon, A. Lambert and R. Wallman. After listening to the above citizens views and questions, Mr. Mitchell stated that the people of the Township had made a deep impression on him and his goal is to do everything possible in his authority to work out the best plan possible for the Township.

At this point a short break was requested. Meeting recessed at 10:17 pm.

Meeting reconvened at 10:47 pm.

At this time the Board was given an opportunity to respond to the people regarding the Public Hearing, held in July of 1977, regarding the seven mile extension of the present water phase. Supervisor Demski explained that the Township has a Citizens Advisory Committee that study the needs of the Township and bring their findings back to the Township Board.

Mr. Elmer Pringle made the statement that 104 persons in the north end of the Township were using public water without paying.

Motion by Folks, recommend a 30 day delay for an indepth study by the Board of the existing water phase and at the end of that period ask Mr. Mitchell to return and perhaps at that time a meaningful decision could be made. No support. Motion failed.

Several questions were asked by Mr. Mitchell of the Board, such as, how much mileage is involved in the industrial area and what is the water pressure in the trailer parks now and how would it be increased by the completing of the loop. Also, how much mileage is involved in completing the loop that would increase the pressure in the trailer parks.

Engineer Fred Slaviero pointed out the entry point that the Township has from the Detroit Water System. We now have one line coming in. By bringing the water down Harris Road and Haggerty and Martinsville Roads we could have three lines coming in. There will be 160 customers involved in Phase III, the first Million dollar loan and Million dollar grant.

A map was submitted that had been prepared by the Wayne County Health Department with red dots showing the contaminated wells in the Township. Mr. Mitchell pointed out that the dots were in all areas, not just in one area alone. Mr. Mitchell also stated that he did not have the authority to suspend Phase III water extension. Also that we should talk not in terms of an additional two million, but ask for more adequate funds for the Township. The Board and citizens have his full commitment to work with Wayne County Board of Commissioners and Wayne County Board of Health and citizens to start work immediately on Phase IV to eliminate need for the use of polluted water. Call upon the Board to pass a resolution committing them to have a proposal ready by spring.

At this time Mr. Mitchell asked for a resolution by the Township Board. He also recommended a study be made by G. Brown, Wayne County Health Department and himself to discuss and identify the water problems in the Township and the Township Board meet in public session and work out a plan to reach the most people, and to meet in haste.

Motion by Overman, supported by Williams. Board adopt resolution stating the Township Board will submit a pre-application and application to FmHA for additional expansion of water system (Phase IV), hereby commit ourselves to serve the disadvantaged people with the most severe water needs and make a complete study of all lines in Phase III. Motion carried unanimously.

Motion by Banotai, supported by Williams, authorize the Township Board to advertise and take bids for FmHA Water Extension. Motion carried unanimously.

Motion by Overman, supported by Williams, to adjourn Special Meeting, Public Hearing. Meeting adjourned at 12:35 am.

Respectfully submitted,
James M. Reeves, Clerk

I, James M. Reeves, Clerk of Sumpter Township, do hereby certify that the foregoing is a true copy of the minutes taken at a Special Meeting, Public Hearing, held on Tuesday January 3, 1978 at 23483 Sumpter Road, Belleville, Michigan 48111.

God's gift to us is eternal life

The REV. RICHARD P. DEAN
Pastor
Wayne Wesleyan Church
Wayne

Our scripture setting comes from
Romans 6:23 —

"For the wages of sin is death, but the gift of God is eternal life."

Eternal life is a gift. God absolutely refuses to sell His salvation. It is not something that you can earn, but the Scripture says that the wages or the pay for sin is death. Sin in here pictured as a master who pays wages, and the awful wages of sin, are separation of body and soul from the presence of God if "the wages of sin is death" we would be inclined to think that the second part of this verse should read, "the wages of holy living is life." But it doesn't say that. It says: "The gift of God is eternal life."

So we see very clearly that eternal life is a gift, not something that we can get in any other way, but only as a gift from God. On the last page of your bible, in Revelations Chapter 22 and Verse 17, we find this final invitation: "And the Spirit and the bride say, Come, and let him that heareth say come; and let him that is athirst come; and whosoever will, let him take the water of life freely."

Salvation is the free gift of God. Many people are hoping that by works, and good deeds, and ceremonies, and lots of church activity, that they will be prepared for this meeting with God. But the Bible says in Titus 3:5: "We are saved, not by works of righteousness which we have done, but according to his mercy." For in that day no man can stand and say I have done so much that God owes me my salvation.

Good works are extremely important in the life of the Christian, but they'll never atone for our sins. The Apostle Paul says in Ephesians 2:8: "For by grace are we saved through faith, and that not of yourselves, it is the gift of God."

When Jesus came to this earth, and spilled His blood on Calvary, He took our sins upon Himself; He paid the penalty that rightfully belonged to us. This is the favor that God did for us, and now today He offers this

salvation to us as a free gift.

Now I am sure that we all are aware of the fact that gift is not a gift unless it is accepted, nor is a pardon a pardon, if it is refused.

One of the strangest cases in American history, is centered around a man named George Wilson, who was sentenced by the U.S. Court in Philadelphia in the year 1830 to be hanged for murder and robbing the mails. And at the request of many of his friends and family, President Andrew Jackson began to think about a pardon that he could give for George Wilson. So three weeks before he was to be hanged Jackson pardoned George. But Wilson startled the world by refusing to accept the pardon and insisting that he would hang according to the court's decision. For George Wilson declared that the pardon was no pardon unless he accepted it. This was a point in the law that never had come up before, so President Jackson called upon Chief Justice John Maxwell to write a decision which read like this:

So we see very clearly that eternal life is a gift, not something that we can get in any other way...

"A pardon is a paper, the value of which depends upon its acceptance by the person implicated. It is hardly to be supposed that one under the sentence of death, would refuse to accept a pardon, but if it is refused, it is no pardon."

Most people would agree that Wilson was a fool for refusing to

accept the pardon, and yet many of these same people are daily refusing to accept the pardon which God has provided for them. If you are unsaved today, you are under the

sentence of sin and condemned to die eternally in the outer darkness of hell.

But today God is still offering to you a pardon. He is saying that you

don't need to die, because I have give myself of you, I have paid the price for all your sins. But if you do reject this offer it is no pardon. But remember that the "Wages of sin is death."

"Just now, your doubtings give over,

Just now, reject Him no more, Just now, throw open the door; Let Jesus come into your heart."

Speech is aired on TV-56

Gov. William G. Milliken's Annual State of the State Address will be broadcast again this year on Channel 56 Jan. 12 at 9:00 p.m.

Gov. Milliken will address both the House of Representatives and the Senate from the floor of the Legislature. He is expected to outline the priorities of the State of Michigan for the upcoming year. It is expected that his speech will include a discussion of the economy, transportation, new state programs and taxes.

Capitol Correspondent, Tim Skubick from WKAR, public television in East Lansing, will provide a summary and analysis immediately following the address. He also will question other legislators on their impressions and reactions to Milliken's speech.

TODAY'S Real Estate

by M. Phyllis Crabtree

In the older parts of established cities, you find multiple types of houses — row houses, or taller apartment buildings. These extend to outer parts of larger cities, where old townhouses, duplexes and garden apartments (row houses scattered through the landscape rather than along the streets), may be found. Suburbs now have duplexes, small apartments, and a renaissance of row houses, besides the traditional freestanding house, usually the only type found in the country.

Second class set for Jan. 18

The second session of the "Beekeeping Workshop" will be held at the Nature Center of Kensington Metropark near Milford at 7 p.m. on Jan. 18.

This session will deal with the equipment needed to begin beekeeping. Even though this is the second meeting of this seven-week workshop, there

still is time to join the workshop.

There is no charge for this workshop, but advance registration is required. Vehicle entry permits are required during the winter months.

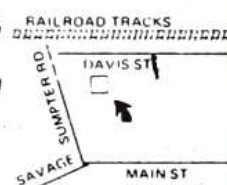

For information or registration contact the Nature Center of Kensington Metropark at 685-1561 (Milford).

Funeral Home

WHAT SHOULD THE
DECEASED WEAR?

Clothing helps to express the unique characteristics of an individual. Even in death, clothing can convey the special personality of the deceased. In the planning of funeral details, the matter of clothing for the deceased should not be overlooked.

Has there been a request in the past from the deceased concerning his or her own feelings? Sometimes a uniform of office or volunteer leadership has been requested, because of the significance to the deceased. Medals and jewelry may be considered to complete the uniform or dress.

Is clothing worn by the deceased during lifetime appropriate? By all means. A suit or dress which was a particular favorite of the deceased — or the survivor — may be the prime consideration.

We invite your questions and will answer them privately or publicly through this column.

Series takes look at art pottery in the US

The Friday presentation of the Antiques Lecture Series at Henry Ford Museum, entitled "Art Pottery of the United States," will introduce its audience to a special ceramic world where pottery was designed merely to be beautiful and not always practical.

School menu

Students in the Van Buren public schools will be dining on such entrees as pizza and Italian spaghetti, during an abbreviated school week next week.

Classes will recess next Wednesday through Friday for the annual semester break.

In the elementary schools, the menu Monday will be soup, sloppy joes on buns, french fries, cookies and milk, followed by pizza, vegetable, cole slaw or salad, fruit, cookies and milk Tuesday.

In the junior highs the menu Monday will be Italian spaghetti with meat sauce, hot Italian garlic bread, vegetable, icy bird, fruit and milk, with baked meat loaf with mashed potatoes and gravy, bread and butter, cake, vegetable, fruit, Jell-O and milk on tap for Tuesday.

The alternate menu selections in the junior highs will be Belleville burgers Monday and doubleburgers with cheese Tuesday.

Class set

A series of clinics and demonstrations on self-examination for breast cancer will be held on Tuesday and Jan. 19 at Heritage Hospital in Taylor.

The sessions are open to all women of the community, and there is no charge for the service.

The Nursing Service will direct the one hour segments, which will be at 1:30, and 8 p.m. Tuesday. The Thursday sessions will be in the morning only at 10 and 11 a.m.

Area women are urged to avail themselves of this service. If there are any questions, call the Heritage Hospital at 292-3300.

Increasingly in demand among collectors, art pottery of the late 19th and early 20th centuries will be discussed in a lecture by George O. Bird, retired senior curator of decorative arts at Henry Ford Museum. The lecture will primarily be illustrated with slides of objects in the Henry Ford Museum collection.

Those attending the lecture can dine in Heritage Hall in the Museum at 7 p.m. Cocktails are optional. The

lecture is in Henry Ford Museum Theater and admission is \$3. Information on reservations may be obtained by calling (313) 271-1620, ext. 414.

One characteristic of art pottery is that it was designed for no particularly utilitarian purpose. Another interesting aspect is that art pottery artisans often were women, while artisans creating art glass during this period were almost exclusively men.

Bird came to Henry Ford Museum in July 1953 and worked primarily with glass, ceramics, metals and textiles. He has written articles for The Journal of Glass Studies, Antiques Magazine, Antiques Journal and numerous antique show catalogs, and he has lectured for Columbia University, the University of Michigan and Wayne State University.

Four other distinguished speakers are featured during the remainder

of the series. On Feb. 10, Sarah B. Sherill, associate editor of The Magazine Antiques, will offer "The World at our Feet: Floor Coverings in America, 17th to mid-19th Century."

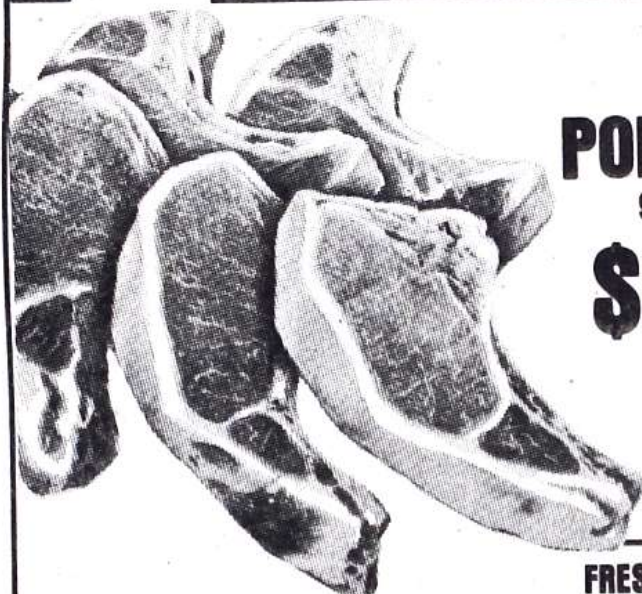

On March 10, Phillip H. Curtis, curator of Decorative Arts at the Newark Museum, will review "A History of Pottery Manufacture in America." On April 14, Henry J. Kauffman, noted author, lecturer and collector, will survey the subject

of "A History of American Metals." On May 12, Dora Jane Hanson, art historian, author and lecturer, will talk on "Jewelry in the United States." The lecture will be followed by a jewelry clinic, and members of the audience may bring articles for discussion.

Glenn wins key game, 63-62

Rockets run rampant at North

When the final score blinked, it read: John Glenn 63, North Farmington 62.

And there was an indescribable elation near the Glenn bench.

The Westlanders had won the "big one". They knew that they had to beat North in order to become creditable title contenders. And they did it.

"I'm really proud at the way our kids played," Coach Gordie Davis would later say. But at the moment of victory he was speechless. As Rocket fans swarmed over their cagers, no one really believed that Glenn could pull it off, except maybe the Rockets and the coach.

"You know North is such a talented club with size," Davis

continued. "We had to play an exceptional game to win, and our kids — each and everyone — did what they were supposed to.

"Our kids met the challenge and we did it."

Glenn won't be able to rest on its victory as it is due to take on a "dangerous" Livonia Franklin quintet. Because of a scheduling quirk, Glenn will not play Garden City East, so if it goes down to percentage points, the Westlanders could be in trouble. That's why they can't afford to lose, according to Davis.

"When East restored athletics we couldn't get them back on the schedule," Davis pointed out. So if the championship has to be decided

Enterprise-Roman
Section C

Sports Scene

Tom Mooradian, Sports Editor

by two teams that have an equal number of losses, we could be in trouble."

Davis went on to say that his team will play six league games as compared to North, Franklin and

Thurston's eight.

The outcome of the North-Glenn game went down to the final second

mark. Mitch Preston hit a layup to put the Rockets up by three points with 13 seconds remaining in the game, but North replied with Jeff Thomas's jumper to close the gap to one.

However, only one second remained on the clock and the Rockets had just enough time to toss in the inbound pass before the final whistle.

Until then it was a typical North-Glenn game. Neither team conceded anything. Glenn adopted a format to run when it was able and play for the percentage shot when North had its defenses organized. North, with superior height, wanted to take the

(Continued on Page 2)

The Sports Meridian

Friday the 13th, ominous omen?

By TOM MOORADIAN
ANP Sports Editor

The "book of superstitions" informs us that Friday the 13th is an unholy reunion of dates, an ominous omen of things to come.

This Friday is the 13th.

And the honorable business of sports men that day will be to conduct their daily schedule just as they do any other day.

That is, if you're not superstitious.

Tom Niemi, Belleville High's head basketball coach, says he is not superstitious. Niemi's guest for the evening, Fred Thomann, Niemi's counterpart at Plymouth Salem High, also confesses that he doesn't believe in superstitions.

However, neither man could explain why, during the past four years their two teams have split when it comes to the won-lost column. In fact, Salem which has dominated the Suburban 8 Conference basketball league, has compiled an incredible record in the league, winning more than 100 during Thomann's tenure and losing about five.

And would you believe four of those losses were handed to Thomann's Rocks by Niemi's Tigers?

Machiavellian when it comes to the winning of cage games, Thomann couldn't explain the peculiar happenings when the teams meet.

Like last year Belleville beat the champs by some 30 points.

"I don't know what it is," points out Thomann, "but I think they view us as their natural rivals. They just get sky high for us."

Of course Belleville's "natural" rival is neighboring Ypsilanti. The two school districts border one another.

But Niemi concurs with Thomann, "that there is an inexplicable rivalry between the two teams that spurs healthy competition."

"We have a lot of respect for Thomann and Salem," stressed Niemi. "They have tremendous depth, quickness and size and hey, they're undefeated."

"I think our Friday night confrontation is going to be one heck of an encounter," Niemi said. "Let's hope not of a third kind — we don't need people from outer space dropping in to make that game interesting."

Hockey players fight cancer

I've promised Bob Wood to get this in my column somewhere, so here goes. The Franklin Junior Hockey Club will play Marshall on Friday, January 20 at 7 p.m. at the Westland Jaycees' Arena.

There are three good reasons for scheduling the game according to Wood. First, a portion of the proceeds will go the American Cancer Society; secondly, some of the monies will be presented to the Therapeutic Recreation Program in Westland, and thirdly Marshall has started up a hockey club and feels it can beat the veteran Franklin team.

Now it that doesn't stir up competition, Bob, I don't know what will.

The price of tickets, by the way, is \$1 for adults and 50 cents for students. The arena is located on Wildwood between Cherry Hill and Ford rd.

Feedback on swim team's demise

Predictably, the demise of the Riverside High varsity swim program produced reactions from area coaches and one, Jerry Pawloski, Cherry Hill's veteran mentor, felt, at least, the death was premature.

The North Dearborn Heights School District where Riverside is located eliminated winter sports on the varsity level when it failed to get a millage levy passed. After four tries the school district finally won out, but school officials said that though spring sports would be restored, they doubted if the swim program would ever be organized again because of the cost factor.

"That is one thing I can't understand," Pawloski said. "Swimming is one of the cheaper sports to run and I just can't see how they would say otherwise."

Pawloski, who has achieved outstanding success with his teams at Cherry Hill — the Spartans have won numerous conference championships — noted, "that if you have a secondary swimming program, that is, you utilize the pool daily for classes, then the extra and additional time that a team would use in the pool is very minimal."

"Yes, I can understand that if you, don't have a secondary program or a pool and must use another school's facilities, then the cost could be steep."

"But Riverside has a pool — is it just going to sit there without water or care?" Pawloski asked.

One of the reasons Pawloski reacted, he said, to the statement that Riverside wasn't going to have varsity swimming, "was that the school has produced some very talented people in the past and it's a shame to see it end."

"Any time our kids and athletics are denied a facility that can help build their bodies and minds I think it's wrong," Pawloski added.

Beginning of the end...

Glenn's senior center Tom Jurewicz (52) tries to control the jump ball as action begins against North Farmington. Jurewicz played his finest game of the season to end North's brief reign at the top of the Northwest Suburban standings.

Jurewicz tossed in 19 points to help the Rockets stun North 63-62 and established the Westlanders as the team to beat in the conference. Glenn will take a 2-0 league record to Livonia Franklin Friday night.

Franklin warms up for Westlanders with win over Dow

Livonia Franklin has nothing to lose and everything to gain Friday night when Northwest Suburban Conference leader John Glenn invades the Patriots' gym.

Glenn has the grip on first place thanks to a 2-0 conference record but Franklin is breathing down the leaders' neck. If Coach Jim McIntyre's cagers can upset the Glenn machine, there'll be a scramble for the top of the standings. Glenn, Franklin and North will be jammed up on top.

Glenn has a fine ball club," said McIntyre. "They have four of their players back off of last year's squad and, after beating North Farmington last week, they have momentum, so they'll be tough to stop. I feel our job will be to stop their fine shooters."

Franklin warmed up for the Westlanders by rallying to a 71-67 victory over Midland Dow. The game wasn't decided until the fourth period when the Patriots made nine of 11 shots to pull away from their visitors.

Franklin started off with a 19-16 first period lead, but Dow shot back and outscored their hosts 25-17 to take a 41-36 lead at halftime. The Patriots outscored Dow 15-12 to come within a basket, 53-51 of knotting it all up.

Wayne reigns at Schoolcraft

Who says meek will inherit the earth?

If the meek are to inherit the earth, it wasn't evident at the Eighth Annual Schoolcraft Invitational Wrestling Tournament where only the "strong and slick" prevailed.

And Wayne Memorial, forced to abandon the coveted throne a year ago by natural rival, Westland John Glenn, returned as a conqueror Saturday.

Coach John Wood's grapplers dominated the tournament, beating out their nearest rival, Glenn, by more than 45 points. Some 29 teams took part in the two-day competition that concluded at the Livonia-based community college late Saturday night.

"We came to Schoolcraft with a wait-and-see attitude," said Wood who is in his first year as head coach at Wayne. "I expected to place among the top three, but I was pleasantly surprised that we won so handily."

Wood said that his team wouldn't rest on its laurels, though, "because we have Monroe to contend with on Thursday and we have the tough Plymouth Salem Tournament on Saturday, so we can't coast on this victory."

Wood however did have relentless praise for his grapplers who strolled

off the mats with three gold medals, a pair of seconds, a third, fifth and sixth place.

Bo Wanshon provided the champs with a gold medal in the 114-pound class where he outwrestled North Farmington's Ed Scully in the finals, 5-0.

Corry Bachus, returning after an injury, pulled the upset of the championship round when the Wayne senior surprised previously undefeated Gary McDermott of Dearborn Heights Annapolis. Bachus won a 7-4 decision in the 134-pound class.

Meanwhile, Corry's twin brother, Chris, duplicated the gold medal effort in the 140-pound division. Chris clashed with Bay City Western's Mark Gorney and won on a 9-2 decision.

But previously undefeated Wayne 180-pounder Chris Leverenz sustained his first setback of the current campaign. Leverenz carried a 22-0 won-lost record into his match with Farmington Harrison's Fred Blackmer who squeezed out a narrow 3-2 decision for the gold.

Wayne's 157-pounder Dave Lusk also was forced to settle for a silver medal when he lost a 4-2 decision to Livonia Franklin's Mitch Becker.

Jim Fairchild is establishing himself as one of the finer wrestlers

in the area as he continued to look impressive on the mats. Fairchild, who finished third at 147, tied the existing Wayne record of four falls in a single tournament and, though he had Plymouth Canton's Kyle Heaton in serious near-fall situations four times in the match for third place, Fairchild was unable to secure the fall to break the record.

The Individual Most Falls Award eventually was presented to Plymouth Salem's Bob Dasher who amassed four pins in an elapsed time of 8:25.

Wayne's fifth and sixth place finishers were Dave Shell, at 100, and Jeff Bovia, respectively.

Glenn received outstanding performances from Paul Demers (100), Jeff Doyle (167), Jerome Robinson (unlimited) who were runners-up in their respective weight classes.

Bill Meyer's contribution to the Glenn cause was a third place at 157, while Tim O'Neil (107) and Mickey Bauer (140) finished fifth.

Plymouth Salem has its share of medals. The Rocks took home fourth third places thanks to Jeff Brown (100), Steve Ernst (114), Rene Leist (121), and Dasher (unlimited). The Rocks also were fifth and sixth respectively with Jim Ross (128) and Bruce Piper (180).

Plymouth Canton's lone medalist was Kyle Heaton who finished fourth.

Wayne also came away from the tournament with the Team Most Falls Award. The champs counted 17 pins in the total elapsed time of 51:52.

"From the Bay City Tournament," Wood noted, "we got the momentum going. We worked extremely hard these past two weeks and I believe it paid off. This is the best we have wrestled all year."

EIGHTH ANNUAL SCHOOLCRAFT COLLEGE HIGH SCHOOL WRESTLING INVITATIONAL

TEAM RESULTS
1. Wayne Memorial (195 1/2); 2. Westland John Glenn (149 1/2); 3. Bay City Western (139); 4. Ypsilanti (133); 5. Plymouth Salem (132 1/2); 6. Detroit Thurston (114 1/2); 7. Farmington Hills Harrison (100); 8. North Farmington (97 1/2); 9. Dearborn Heights Annapolis (87); 10. (tie) Farmington and Mt. Clemens (82 each); 12. Novi (71); 13. Southfield Lathrup (69 1/2); 14. Walled Lake Western (67); 15. South Lyon (64 1/2); 16. Dearborn Heights Crestwood (44); 17. Clawson (44 1/2); 18. Dearborn Edsel Ford (39 1/2); 19. Birmingham Groves (39); 20. Livonia Franklin (38 1/2); 21. Bedford Union (34); 22. Clawson (32 1/2); 23. Livonia Stevenson (24); 24. Plymouth Canton (23); 25. West Bloomfield (20); 26. Southfield (7); 27. Livonia Churchill (4); 28. Livonia Bentley (3); 29. Warren Woods (1).

Glenn ousts North from 1st

(Continued from Page 1)
game to the boards, but Glenn's Tom Jurewicz, who played his finest game to date, was ready to disrupt the Northern plans.

Ahead 17-16 at the end of the first period, Glenn lost the slim lead at halftime as the two rivals walked into the locker room all tied up at 29-29. Both teams scored 19 points apiece in the third period and a 15-14 scoring edge by the Rockets in the final eight minutes was the difference.

Jurewicz, a 6-5 senior, nailed down seven rebounds and led the Rockets in scoring with 19 points, while junior guard, Daran Armstrong, was in the driving seat as he

penetrated the North defenses and set up the plays. Armstrong collected 16 points. Glenn also received an excellent performance from guard Pat McBride who had 12.

North responded with a 22-point scoring effort from Jeff Thomas, the high scorer for the evening. The Raiders also received double figures from Mark Biehl and Ron Nutter who had 11 and 10 points, respectively.

Glenn's performance at the free throw line didn't help its cause much. The Rockets made five of 12 fouls; North realized two of six from the charity stripe.

However, the Westlanders

capitalized on 29 of 56 from the field, good for 52 percent.

Rocket 'runner'

Getting his message and the ball across the center line, Glenn's junior guard Daran Armstrong (20) penetrates North Farmington's defenses. Armstrong and the Rockets stunned the previously undefeated Northwest Suburban

Conference leader and took over sole possession of first with a nail-biting 63-62 victory. Armstrong's contribution to the victory included 16 points and a flock of assists.

Bulldogs' cage bid to upset Highland Park falls short

From the outset it appeared that there was an upset in the making at Robichaud Friday evening when Highland Park visited Coach Francis McCauley's troops.

Robichaud went on a first period scoring binge as a balanced attack lifted the Bulldogs to a 12-8 lead, but the unimpressed Parkers, guided by forward Freddie Davis, shot back with a 25-13 second period to take a 33-25 halftime edge before going on to win 71-51.

It was the third Suburban Athletic Conference loss for the Bulldogs, who will meet Ecorse Friday night. The game ended the first round of SAC competition.

"It was a close game until five minutes remaining in the final period," commented McCauley whose team has compiled a 6-5 won-lost over-all record but is 0-3 in league play. "We were behind by eight with five minutes left and began to gamble and get careless which led to a rash of turnovers — that did it."

Davis slammed in 10 of his game high 28 points in that pivotal second period and teammate Anthony Ball added 10 to bring the Parkers back. The befuddled Bulldogs overcame

the halftime deficit and tied the score midway in the third period when Ivy Harper and Terry Ross began to find the range, but it wasn't enough.

Harper, the hottest pistol on the Robichaud squad in recent weeks, settled for 13 points while Alvin Carter counted 10.

Davis pumped in 13 field goals and two free throws for his 28 points while Daryl Jarnon and Ball chipped in 16 and 12 points, respectively, for the Parkers.

Robichaud started the new year with an impressive 74-53 victory over Clarenceville, a team picked to win the Metro-West Conference title.

Outscoring their nonleague rivals 25-18 after leading in the second period after taking an 18-12 first period advantage, Robichaud took command 43-30 at the intermission. Though Clarenceville managed to put up some sort of resistance most of the second half, it never overcame the early deficit.

Four Robichaud cagers reached double figures with Harper and Melvin Ballard each getting 12, while Carter and Ross split 22 points between them.

Clarenceville's Jim Beyer scored 21 points, the game's high and center

Bill Peterson contributed 12. Jim McPhail counted 10.

Grissom's world

Hard water fishing

By SAM GRISSOM
Outdoor Writer

Well the water is finally hard enough to walk on without too much danger of falling through — the ice fishing season is upon us at last.

Each year the number of people you see on the ice is increasing, and a large number of families are finding that ice fishing is an ideal way to have an inexpensive family outing.

Equipment is minimal and even if you go out and buy everything at once, you won't be spending more than a few dollars.

The rod you'll need doesn't have to be much more than a simple fiberglass rod about two feet long with either two pegs to wind the line around or a small reel.

I've found that a small single action fly reel is ideal. The line should not exceed six pound test and the finer the line the better.

Heavy line, besides being more visible, stiffens in cold weather and makes it hard to detect the fish when they hit.

Lures for ice fishing are very inexpensive and with the exception of the Rapala jigging lures you would be hard pressed to spend more than 70 cents per lure. You won't need many; a half a dozen is plenty to start with.

I carry all of my ice fishing lures in a small pill bottle, so get just a few. Small teardrop lures with rubber legs are my favorite for bluegills and I've had the most luck for perch with a small Swedish Pimple.

Both are extremely effective baits particularly when sweetened with a small piece of bait.

Baits for bluegills will vary from lake to lake, and from angler to angler. Ask other people that are catching fish what they are using.

Some of the favored baits in winter are - mousies

waxworms, meal worms, corn borers, and goldenrod grubs.

When a lake holds large perch or crappies you might want to try minnows. Remember to buy the smaller size, 1½ to 2½ inches seems to be about right.

When looking for a place to fish remember the places you fished last summer. Most spots that produced nice bluegills last summer will produce well in winter. Look for them over weedbeds, dropoffs, and at the end of land points. Usually the water depth will be about ten to fifteen feet.

The key to successful ice fishing is being able to detect the slightest indication of a hit. The largest of bluegills can inhale your offering and spit it out in the blink of an eye without your having felt a thing.

You have to watch your line and strike at the slightest movement.

Some fishermen use small bobbers, but I've found the best indicator is the kinks in your fishing line. As you jig your bait most hits will be as the lure drops so be ready, when the kinks straighten slightly — strike.

Fish will hit any time of the day, but I've found the evening to be the most productive. Usually a couple of hours before dark is the best time to get there, and if the lake holds crappies be sure to stay for a couple of hours after dark.

If you like to eat panfish as well as I do, you'll enjoy them more in winter. I don't know if it's due to the cold water or because you have to work harder to get them; but winter fish seem to taste better.

Ice fishing isn't much fun for me as steelheading, but it is fishing. Besides it helps the winter to go by faster and makes it a lot more enjoyable. Good Luck!!!

Undefeated Spartans coast past Schafer

A torturous 2-week holiday practice schedule paid off for undefeated Cherry Hill which began the defense of its Tri-River Conference swim title with a one-sided 120-52 victory over Schafer.

Schafer was considered as the main threat for Coach Jerry Pawloski's Spartans but that threat apparently was more hyper-bolic than factual.

The defending champs mastered 10 of the 11 events, missing the sweep when they lost to Jeff Todd in the 100-yard breaststroke.

There was little room for speculation after the first five events as the Spartans claimed most of the races with their swimmers finishing one-two. Gary Schuler and Rick Kogelschatz provided the Spartans with four individual events.

Kogelschatz, an all-stater a year ago, covered the 50-yard freestyle in a fast 22.5, while he won the 100-yard backstroke with a 1:00.9 effort.

Schuler led teammate Jeff Wallace to the finish of the 200-yard freestyle, posting an even two minutes for his performance, then returned to win the 100-yard freestyle in 55.1.

Earlier in the week, Cherry Hill dumped Riverview 97-74 in a rematch. In their first meeting, the Spartans managed to come out ahead of a close meet.

"This time I feel we were up for the meet," Pawloski said, "especially our inexperienced swimmers. In our first meet with Riverview, most of our kids were

swimming in their first varsity meet.

"Just a little more experience helped a lot," Pawloski added.

(Continued on Page 3)

Glenn tankers rout Annapolis, for No. 3

Westland John Glenn swimmers started the New Year off on the right track as the Rockets rattled Dearborn Heights Annapolis 117-53 for their third victory in four starts.

"We looked impressive," said Glenn Coach Frank Higgins who is in his first year as the Rockets' head coach. "We dropped our times considerably over the past couple of weeks."

The Westlanders swept all 11 first places, including both relays. Tom Christensen accounted for two of the Glenn first places, winning the 200-yard freestyle in 1:59.1, and also claiming the 100-yard freestyle thanks to a 1:07.6.

Meet results: Westland John Glenn 117, Annapolis 53

200-YARD MEDLEY RELAY
1. John Glenn, (Jim Soulliere, Joe Garbus, Craig Pici, Roger Dodd) - 1:54.2 2. John Glenn - 1:59.4 3. Annapolis - 2:00.7

200-YARD FREESTYLE

How sweet it is

Wayne gives coach belated Christmas gift

Though it was a couple of weeks after the holidays, Coach Chuck Henry didn't mind.

In fact the Wayne Memorial rookie head basketball coach was elated.

What had happened was that his Zebras went out and purchased a belated Christmas gift at the expense of Monroe, giving Henry his first Great Lakes 8 Conference

victory as the Wayne skipper.

"I was happy for two reasons," Henry said after Friday night's 54-47 come-from-behind triumph over the visiting Trojans. "Friday night was the first time in nearly four weeks we had our complete line-up back," Henry continued. "We have had three key players out for various reasons."

Back in the lineup Friday night

were Bob Boertke, Kelvin Lee and Weam Sabagh. Boertke sustained a severe ankle sprain in mid-December during the Fordson game, while Lee and Sabagh have been fighting the flu.

Wayne had to make up a 10-point deficit to catch Monroe which ripped off the first 10 points of the third period and held a 39-29 edge before Wayne mustered enough scoring

power to counter-attack.

Monroe gained a slim 17-15 first period lead, but Wayne kept close by outscoring their visitors 13-12 in the second period to trail 29-28 at the half. When Monroe came back and scored 10 straight points to Wayne's one in the initial minutes of the third period, it looked all over for the Zebras.

(Continued on Page 4)

King leads Canton to 1st place

Foul-troubled Butch King came off the bench in the fourth period and pumped in 12 points to break open a close game and give Plymouth Canton a much-needed 61-50 victory over Northville. Trailing by three (12-9) at the end of the first period,

Canton matched Northville basket-for-basket in the second eight minutes to walk off the floor behind 28-25 at the intermission.

King, Canton's scoring leader and floor general, found himself on the bench most of the second period and

all of the third because of personal fouls.

"Butch returned to the game with six minutes remaining and sparked the club," said Canton's Casey Cavel. "His 12 points turned things around."

Neither team had more than a four-point lead at any one time during the game.

It was Canton's poorest offensive showing of the season as the Chiefs made a mere 22 of 70 shots from the field. Though they canned 17 of 26 at the foul line, it was Randy Reinas' clutch free throws in the last couple of minutes that gave the Chiefs the lead for good.

King finished the evening with 18 points, which stood up for the game's high. He also slipped in six of seven at the free throw line. Reinas contributed 16 points, connecting on six of 11 foul shots.

Joe Schimpf paced Northville with 17 points and John Horvath added 12.

Canton now shares the Western Six Conference lead with Waterford Mott and could take hold of the top of the standings by itself by defeating Mott Friday night. Mott, however, will have the home court advantage.

"Mott has an excellent team and an outstanding player in Heatherington (Kevin) who made the all-conference team a year ago," Coach Cavel said. "We're going to have to stop him to win."

Waterford Mott '5' deals Churchill a crushing defeat

Unheralded Waterford Mott shook up the Western Six Basketball Conference by jarring co-leader, Livonia Churchill, 73-55.

The Mott victory, coupled with Plymouth Canton's triumph over the second co-leader, Northville, put the two winners in first place, while Churchill and Northville slipped back a notch.

"They set the tone and the pace of the game," said Churchill's Fred Price, commenting on the Chargers' setback. "They outthrust us in the first half and when we realized what was happening it was too late for us to catch up."

Waterford, led by 6-3 all-conference forward Kevin

FRED PRICE

Heatherington, built up a 22-11 first period lead, then outscored the Chargers 14-9 in the second period.

The winners came back in the third period with their guns ablazing as they shot down their rivals 24-8 to take an insurmountable 60-28 advantage into the final period.

"Our offense just wasn't there to stop them," Price added. "They outthrust us in every department, however, we still have a few games left — this isn't the end. We're just going to have to work harder."

Heatherington made six field goals and three of seven free throws for a game high 15 points.

Three other Mott cagers reached double figures. The best Churchill could respond with was with Craig Hanton's 12 points. Dave Talovich also was in two figures, scoring 11 points.

Churchill will try to pick up the pieces Friday night at the expense of Farmington Harrison which will bring down the curtains for the first round.

"We played four of the five league games on the road in the first round," said Price, "and we figured if we could break even on the road we'd still be in the race."

"Therefore, the Harrison game is an important one for us," Price noted.

Salem swimmers are ready for Edsel

Plymouth Salem warmed up for the tough Suburban 8 Conference swim campaign by forging an 89-83 victory over Ypsilanti last Thursday.

Coach Chuck Olson's tankers will travel to Edsel Thursday night for their league debut. Edsel and Dearborn have been the dominant forces in the conference since its inception six years ago.

"We are improving, but must continue to improve to compete in this league," Olson commented. "Edsel always has a decent club."

Salem claimed seven of the 11 events against Ypsilanti and Coach Olson credited the victory "to our performances in the third and fourth places."

"It was pretty well decided who would get first and second, but the other places were up for grabs," he pointed out.

The Rocks had a pair of double winners as Craig Finley and Mike Etienne split four firsts. Finley was the top performer in the 200-yard individual medley as he posted a 2:09.8, then was clocked in 1:02.2 for the 100-yard backstroke.

Etienne turned in a 24.1 in winning the 50-yard freestyle and he covered the 500-yard freestyle in 5:22.6.

Meet results: Plymouth Salem 89, Ypsilanti 83

Hills in record-setting mood

A well-rested Wayne Memorial swim team returned to action last Thursday and coasted past Thurston 132-40 to start out the new year with their third consecutive victory.

While Coach Jim McPartlin's Zebras swept all 11 events, Dave Hills was in a record-setting mood as he stashed away the 500-yard freestyle with a fast 5:06.4 performance.

Hills' winning time established a Wayne pool record.

"This was the first dual meet we have had in nearly four weeks and we were really up for it," commented McPartlin. "The kids looked good."

McPartlin also reserved some praise for Tom Brown's winning

performance in the 200-yard freestyle. Brown was clocked in 1:52.8, getting the nudge over teammate Hills who had the identical time for the event.

Wayne begins its defense of the Great Lakes 8 Conference championship Thursday night at home to Taylor Truman. Truman isn't expected to give the champs any problems. The meet will get underway at 7:30 p.m.

Meanwhile, Wayne and Westland John Glenn clashed Tuesday night for their annual meet.

Meet results: Wayne Memorial 132, Thurston 40

On Friday the 13th

Belleville awaits undefeated Salem

And now we have the game that the entire Suburban 8 Conference basketball league will keep its eyes on: Belleville vs. Plymouth Salem.

Salem, the champ - Belleville, the perennial challenger who has had success against Coach Fred Thomann's Rocks.

Belleville will welcome the undefeated Salem quintet Friday night and Coach Tom Niemi and his

Tigers know they will need this one to keep their title hopes alive.

Belleville cruised past Redford Union 79-58 last Friday to bring its record up to 2-1 in the league, but the Rocks are 4-0 and a Tiger setback would put a damper on any title plans; a victory would send a wave of optimism through the league, echoing hope that the Rocks could be had this year.

"All four years that I have coached here we have split with them," Niemi said. "They have another excellent team and also have one of their guards, Rich Hewlett back. Hewlett was injured the last league game of the football season."

"Hewlett, Ellinghausen and a couple of others make them real tough," Niemi added.

Belleville may go into the crucial game without senior starter Rob Laney who had been nursing the flu. Laney sought the solace of the bench after playing less than a half against Redford Union.

Meanwhile, R.U. didn't have in its line-up, 6-7 Mike Petsch, one of the top scorers and rebounders on the team. Petsch reportedly came down with the flu and missed the game.

Belleville took advantage of Petsch's absence and Kelvin Patterson's "hot hands" to break away to a 21-12 first period lead, then build up a 35-29 lead at the halftime before going on to outscore their league rivals 20-16 and 24-13 in the final two periods.

"R.U. was hit with illness," Niemi said, "and we played a little flat when we learned that Mike (Petsch)

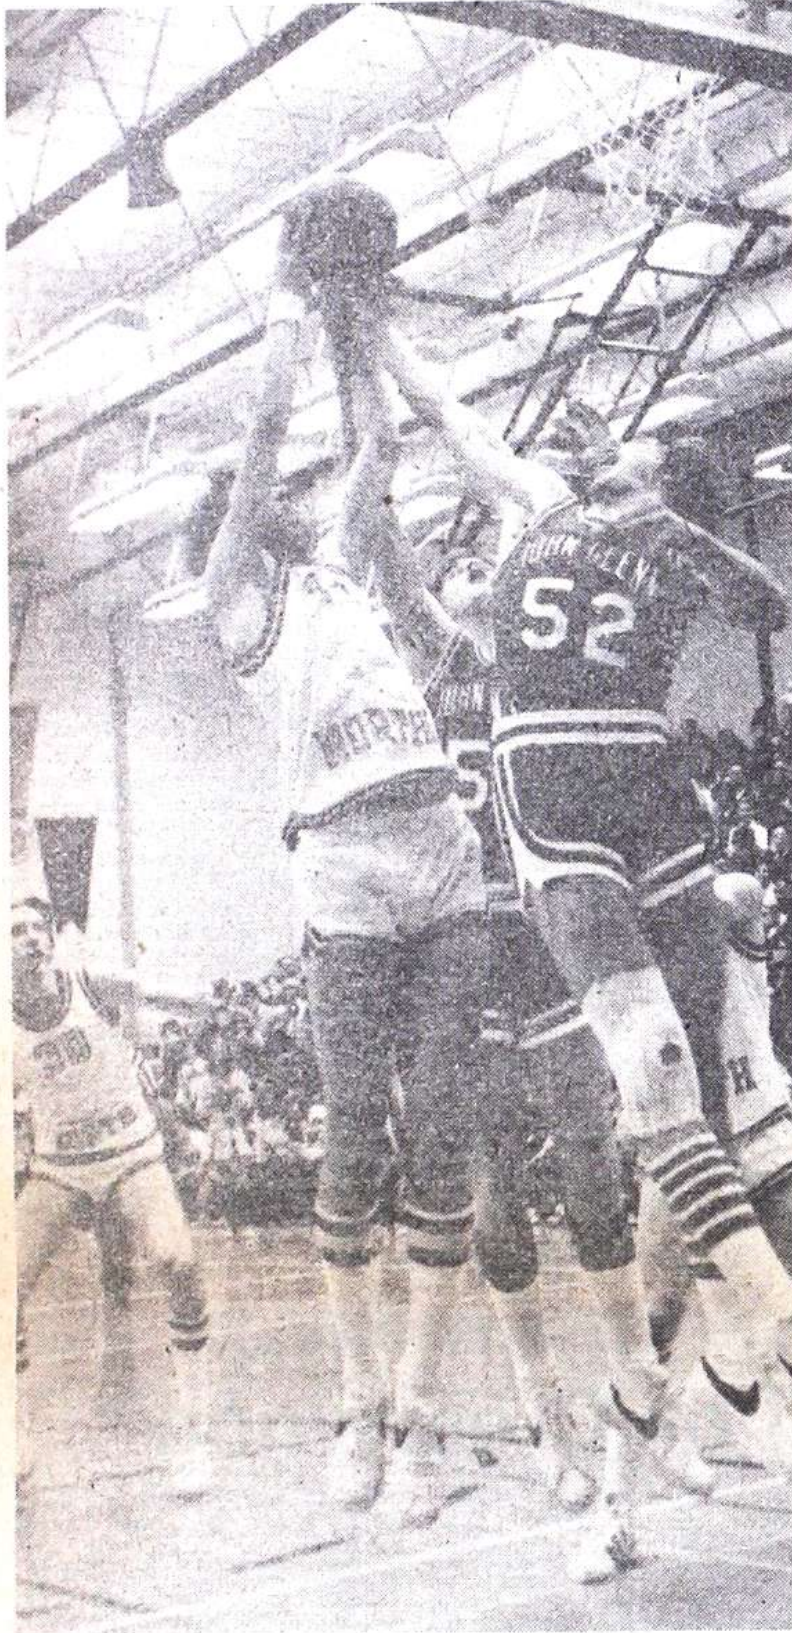

wasn't going to be in the line-up. "But we got it together in the second half and played the way I know we can," Niemi added.

Patterson and Laney combined to provide the Tigers with 21 of their first half points. When Laney headed for the bench in the second half, Patterson picked up the slack and added 22 more points for a game high 33. The sharp-shooting junior sank 15 baskets and tossed in three free throws.

Herb Burrus also was in double figures for the winners, connecting on six field goals and three free throws for 15 points, while Laney counted 10.

Redford Union got 21 points from Dave Bravo.

With the lanky Petsch sidelined,

Having a ball

Whenever the basketball begins to bounce around the rim it's bound to attract players. And, above Glenn's Tom Jurewicz (52) and teammate Brad Summers duel North Farmington's Jeff Thomas (white uniform) for control of this rebound. It was board duels like this that helped the Westlanders swing a 63-62

victory into their Northwest Suburban Conference crown last Friday. Coach Gordie Davis' Patriots are now in the league driver's seat, but face a potentially dangerous Livonia Franklin quintet Friday night to determine just which team or teams will stay on the top.

Wayne cagers snap league losing streak

(Continued from Page 3)

However, a late third period rally sparked by L.W. Matthews and Boertje got the Zebras going. Matthews sank a pair of baskets and Boertje pumped in the go-ahead to give Wayne a 43-41 edge for three periods. The hosts managed to hang on in the last period thanks to a 11-6 scoring advantage.

Lee tossed in four baskets and hit on seven of eight free throws for a game high 15 points, while Matthews settled for 14 and Boertje finished the night with 12.

Wayne made 20 of its 59 shots from the field and hit on 14 of 23 at the foul line. The Trojans canned nine of 12 free throws.

Matthews played an exceptional game on the boards and along with Lee provided the Zebras with a total of 14 rebounds.

Wayne had one of those must

games Tuesday night with Wyandotte and will travel to Riverview for another league encounter Friday night. The Zebras have to get by Wyandotte in order to keep their slim title hopes alive. A loss to the Bruins would leave Wayne with a 1-4 won-lost conference record and no team has ever won the conference championship with four losses.

Rocks rattle Trenton, 91-42

Though they're leaving no stones unturned in their attempt to upend reigning Suburban 8 Conference cage king, Plymouth Salem, the Rocks remain atop of the hill.

Trenton tried to run with the Rocks Friday night and the Trojans were gunned down 91-42. Earlier in the week Dearborn an exaggerated patterned offense and came close, (and that counts only in horseshoes) before the Pioneers bowed 46-44.

"We got into a real good running situation with Trenton," said Salem Coach Fred Thomann, "and it turned out fine for us. They put the ball up."

When it came down it usually was in the hands of a Rock cager who fired it off and away they'll go fast-breaking.

After only eight minutes of play, Salem had established an 17-5 lead. For all purposes the game was over at half when the champs had increased their lead to 37-13. That game the fans an opportunity to discuss school events and matters for the outcome of the game was inevitable.

"We had an outstanding third period," offered Thomann. "We hit on 16 of 18 shots from the floor." The hot-shooting Rocks were out of sight by then, and Thomann used everyone on the bench.

Tom Ellinghausen, Salem's 6-5 senior forward, pumped in 10 baskets and hit on four of four free throws for a game high 24 points. The Rocks had two others in double figures as Steve Horton tossed in 16 and John Broderick, the hero of the Dearborn game a couple of nights before, contributed 11 points.

It was Broderick's tipin with one second left that lifted the Rocks to a close 46-44 victory over league rival, Dearborn, last Tuesday. Rick Hewlett, back in the line-up after a football injury kept him out for five weeks, took the last jumper which Broderick tapped in for the decisive basket.

Dearborn had the lead at 10-8 after the first period, but Salem came back to go ahead 17-16 at the intermission. However the Pioneers outscored the defending champs 14-9 in the next eight minutes and adopted a protective policy about the lead.

"Dearborn didn't try to score

unless it was a sure layup," Thomann said. "I don't think they took five shots in that last quarter. We were fortunate. We got some breaks and Hewlett gave up 10 of his 14 points in the last half."

Hewlett and Dearborn's Paul Kendrick shared individual scoring honors with 14. Ellinghausen and Mike Christie split 22 points between them.

Salem still cage king

Prep swim results

Unheralded Plymouth Canton is showing maturity in the pools as the inaugural Prep Swim & Diving listing of these seasons shows the Chiefs dominated the relays as well as the individual medley and 100-yard breaststroke.

One of the reasons why Canton heads the listings in four events is because of junior Paul Peterson who has been clocked in 2:05.8 for the 200-yard individual medley and has showed a 1:03.1 for the 100-yard breaststroke.

The listing is expected to change considerably before next month's regional and state finals, though, as the preps get down to business to qualify for state.

Here is the listing as compiled by Cherry Hill Coach Jerry Pawloski. In order to get a performance on the listing, please contact Coach Pawloski at the high school PA 2-5900 or at home 941-4399.

200-YARD MEDLEY RELAY	
1. Plymouth Canton (Cline, Peterson, Wood, Tanner) - 1:44.4

Racquetball courts having growth pains

Need more evidence of how fast racquetball is growing?

Sports Illustrated Court Clubs, which has five racquetball clubs in Michigan, and five more under construction (including one in Van Buren Township near Lemontree Apartments) signed up its 10,000th member Christmas week.

Lynn Raseman, Kalamazoo, bought a family membership as a gift for husband Ed, who had played the sport when he attended Notre Dame back in the '60's.

Her lucky timing brought the Rasemans an extra Christmas bonus of some \$400 of racquetball

equipment and clothing and five hours of free court time.

The Sports Illustrated chain reached the 10,000-member milestone only 14 months after opening its first club. President Craig Hall says they'll hit 40,000 by the end of this year when they'll have 15 to 20 clubs open.

Nationally, says Hall, the number of racquetball players reached 5 1/2 million in 1977 and may hit close to 8 million this year. The number of players has approximately doubled every year since 1970. Those numbers are from the National Racquetball Club, the sport's statistician.

Franklin

(Continued from Page 1)

in 10 field goals and made three of five from the free throw line for a game high 23 points, while pivotman Chris Baker added 17. Ron DeYonker and Jim Wilson accounted for 12 and 11 points, respectively.

Dow's Joe Vanderkelen led the visitors with 20 points. Mike Stark and Chris Donaghy contributed 13 and 12 points, respectively.

McIntyre's troops started the new year with a 76-72 overtime victory over Plymouth Canton. Jeff Reich's tip-in at the final buzzer in regulation of Baker's errant jump shot tied the game at 68-68 and forced the issue into overtime.

The Patriots, with Zannis getting the first four points, outscored the Chiefs 8-4 in the extra period.

Though Franklin enjoyed a 16-6 first period lead, it didn't last long as the Chiefs, behind Kurt Herbert's 12 points in the second period tied the game at halftime at 34-34. Franklin outscored their visitors 18-17 in the third period but Canton had the edge in the last eight minutes 17-16.

Zannis' career high 35 points - 10 field goals and 15 of 18 free throws - was one of the reasons why Canton had its problems. Reich supported the hot-shooting Zannis with 13 points, including that key basket, and Baker added 12.

Herbert chalked up 28 points, losing the scoring duel only to Zannis. King sacked 14 points and Russ Mandle tossed in 12.

AUTO FACTS

By Chet Kozin

If your car starts to weave suddenly, a blowout could be imminent. If you hear a thwak, thwak, thwak sound from the vicinity of a wheel, your tire could be chunking — that is, throwing its tread. In either case, grab the steering wheel firmly and take your foot off the gas. Steer in a straight line and don't brake until the car has slowed down enough to pull it off the road safely. Find a safe pull-off area. Don't stop on a bridge or on a road with a narrow shoulder. Keeping your car in or near the flow of traffic can be dangerous.

Pick up flares, emergency tools, and other safety accessories for your car at KOSIN'S AUTO PARTS, 26831 Michigan, Inkster! We feature everything you need to keep your foreign or domestic car running in top condition. Come in and browse around our beautiful display area; our knowledgeable staff will be happy to help you select those parts that are right for your particular car. We also do all types of engine repair work. Bring your machine shop problems to KOSIN'S — we will do our best to solve them. Our expert mechanics can handle any size engine from motorcycle to agricultural. Call us at 563-3894. We are open daily until 8 P.M., Saturdays until 5 P.M. AUTO TIP: After you stop, set out flares. Before a fire goes out, take lessons on how to change one in an emergency.

Cut home fuel bills up to 50%.

Reduce your fuel bills by as much as 50% with Aerolite. Aerolite is a permanent barrier against transfer of heat through outside walls. Aerolite provides better protection than blown wool, glass fiber and granular fill. The better it insulates... the more energy it saves... and the lower your fuel bills will be.

Aerolite effectively insulates new and older homes. And it's practical for all types of construction.

WINTERIZE YOUR HOME TODAY

Huron remains in title chase

With the pieces slowly but surely beginning to fall into place, New Boston Huron, the defending league co-champ, braces for a key week of conference competition.

Huron was scheduled to meet Tecumseh, the owner of the other half of the title and present league-leader, Tuesday night, however, because of the arctic colds schools in the respective school districts were closed. The game was in doubt.

On Friday, Huron will meet Monroe Jefferson.

"This is an important week for us," Huron Coach Gene Smith said. "The game with Tecumseh will tell us a lot."

The Chiefs put on their best offensive show of the season last week to bury Flat Rock 88-71 to even up their conference record to 2-2. Because of those two losses, Huron can't afford to lose another game in the league.

Ahead 22-13 at the end of the first period, the Chiefs fiddled around while Flat Rock was burned on its own miscues. The Chiefs had the game all wrapped up for all purposes by the half when they piled up a comfortable 44-32 advantage.

Though Flat Rock made a bid to comeback after the half, it really

didn't pose a threat during the final two periods.

Gene Reitz and Steve Gill tossed in 22 points apiece for the Chiefs to share individual scoring honors and lead a balanced attack which included 18 points from versatile athlete Randy Pichan and 16 from Bill Knight.

Greg Skeen, who pumped in 10 points in the third period to spark the losers, and Dave Theisen, who connected for 19 points, led Flat Rock scorers.

The Chiefs looked unbeatable at the free throw line where they pumped in 10 of 11 opportunities. Flat Rock had 32 shots from the charity line and made 23 of them.

"This definitely was our best offensive performance of the season," Smith stressed. "Ironically I have been applauding our defense, but we gave up 71 points against Flat Rock so we're going to have to buckle down in that department."

Huron capitalized on 39 of its 52 shots from the floor.

Reitz not only contributed 22 points but he also was the Chiefs' standout in assists. Smith lauded the deft ballhandler for his "floor leadership," while Knight contributed 19 rebounds.

Eagles are no match for Romulus matmen

With most of their veteran wrestlers scattered to neighboring high schools because of a late millage levy approval, a young and rebuilt Romulus squad was no match for Dearborn Heights Annapolis.

Annapolis crushed the Eagles 59-10 in a non-leaguer last week. Romulus received a winning performance from its 191-pounder Derek Humphrey who won a 12-4 decision over Dave Brunell. Annapolis also gave up six points in the

heavyweight division due to a forfeit.

Match results: Annapolis 59, Romulus 10. Ron Sullivan (A) pinned Mark Warren (R), 2:41. 105-Kurt Sepler (A) won on a forfeit. 112-Dave Drouillard (A) pinned Tim Warren (R), 2:45. 119-Tom McDermott (A) dec. Dave Niemann (R), 1:14. 126-Bob Reese (A) dec. Jim Burcroft (R), 4:0. 132-Jim Guyot (A) dec. Gary Matthews (R), 17:3. 138-Gary McDermott (A) pinned Mario Olmo (R), 1:50. 145-Joe Morse (A) pinned Ruben Torres (R), 7:59. 155-Joe Villa (A) pinned Ron Bille (R), 2:52. 165-Mark Halle (A) pinned Chuck Rohde (R), 0:45. 191-Derek Humphrey (R) dec. Dave Brunell (A), 12:4. HYW - Ron Cline (R) won on a forfeit.

Tiger cagers

(Continued from Page 4)

Belleville cleared the boards for 49 rebounds as compared to R.U.'s 23. Chris Koger had 11 of those while Patterson and Elvis Currie contributed 10 and nine respectively.

Belleville hit on 35 of 70 from the field for a respectable 50 percent. Most of those shots though came off of fast breaks and second shots. R.U. had a dismal 19 of 59 shooting record for the evening. That's an anemic 32 percent.

Long's zeroing in on record

Johnny Long, former Romulus High all-state cager, has now had 70 straight games where he has scored in double figures for the University of Detroit Titans.

Long, a 6-5 senior who is averaging 20.1 points per game, raised his career point total to 1746 which stands second on the all-time U-D scoring list. He trails only Dave DeBusschere's 1985 career total.

THE CHERRY HILL SCHOOL DISTRICT
WAYNE COUNTY, MICHIGAN

NOTICE OF LAST DAY OF REGISTRATION

TO THE QUALIFIED ELECTORS OF SAID SCHOOL DISTRICT:

PLEASE TAKE NOTICE that the Special Election of The Cherry Hill School District, Wayne County, Michigan, will be held in said School District on Wednesday, February 22, 1978.

Act 269, Public Acts of Michigan, 1955, as amended, provides as follows:

"The Inspectors of Election at any annual or special election shall not receive the vote of any person residing in a registration school district whose name is not registered as an elector in the city or township in which he resides."

The last day for receiving registrations for said Special Election will be: MONDAY, JANUARY 23, 1978

Persons registering after 5:00 o'clock p.m. on said day will not be eligible to vote at said Special Election. Persons planning to register must determine when the appropriate City or Township Clerk's Office will be open for registration.

Under the provisions of Act 269, Public Acts of Michigan, 1955, as amended, registrations will not be taken by school officials, and only persons who have registered as general electors with the appropriate City or Township Clerk of the City or Township in which they reside, or through registration at a Secretary of State Drivers' License Bureau, are registered school electors.

NOTICE IS HEREBY GIVEN that all persons having the following qualifications are entitled to register and vote:

a. A Citizen of the United States;
b. Over 18 years of age, and
c. A Resident of the State of Michigan for at least 30 days and of the School District 30 days prior to the date of election.

THIS NOTICE IS GIVEN by order of the Board of Education of The Cherry Hill School District, Wayne County, Michigan.

LEGAL NOTICES

To the Supervisor and Clerk of the Township of Canton, Wayne County, Michigan.

Sirs:

You are hereby notified that the Board of County Road Commissioners of the County of Wayne, Michigan, did, at a meeting of said Board held on December 21, 1977, decide and determine that the certain streets described in the minutes of said Board should be County roads under the jurisdiction of the Board of County Road Commissioners. The minutes of said meeting fully describing said streets are hereby made a part of this notice, and are as follows:

Minutes of the regular meeting of the Board of County Road Commissioners of the County of Wayne, Michigan, held at the Board's offices, 415 Clifford Street, Detroit, Michigan, at 12:30 P.M., Eastern Standard Time, Wednesday, December 21, 1977.

Present: Vice-Chairman Herron and Commissioner Burton.

Commissioner Burton moved the adoption of the following resolution:

BE IT RESOLVED by the Board of County Road Commissioners of the County of Wayne, Michigan, that it hereby accepts the dedication to the use of the public of the following described roads and they are hereby taken over as county roads and made a part of the county road system of the County of Wayne:

All of Candlerwood, Crofton, Kingsley and Richmond Courts; Elmhurst Avenue; Kingsley, Richmond, Sheridan, Warfield and Webster Roads and Westchester Lane, as dedicated to the use of the public in MAYFAIR VILLAGE SUN'N O. 2, part of the N.E. 1/4 of Section 3, T.25., R.8E., Canton Twp., Wayne Co., Michigan, as recorded in Liber 97 of Plats on Pages 77, 78 and 79, Wayne County Records, constituting a total of 1.863 miles of County Roads.

The motion was supported by Commissioner Herron and carried by the following vote: Ayes: Commissioners Burton and Herron. Nays: None.

THIS NOTICE IS GIVEN UNDER AND BY VIRTUE OF ACT NO. 283 OF THE PUBLIC ACTS OF 1909, AS AMENDED.

In testimony whereof, I have hereunto set my hand at Detroit, Michigan this 3rd day of January, A.D. 1978.

BOARD OF COUNTY ROAD COMMISSIONERS OF THE COUNTY OF WAYNE, MICHIGAN
Michael Berry, Chairman
Joseph M. Herron, Vice-Chairman
Freddie G. Burton, Commissioner
Henry J. Galecki, Secretary

NOTICE

US-12 From I-275 East to C & O Railroad
PUBLIC MEETING

The Michigan Department of State Highways and Transportation will have representatives present at a public meeting from 4-8 P.M., Tuesday, February 14, 1978, in the I.M.C. Room at the Walker Elementary School, 39932 Michigan Road, Wayne, Michigan.

The purpose of this meeting is to provide the opportunity for the public to drop in and discuss future improvements to US-12 from I-275 east to the C & O Railroad in Wayne County. It is the intent of the Department to not only invite, but also to encourage, citizen involvement and participation in the US-12 study. It must be stressed that this is not a public hearing of the recommended highway improvements, as there have been none selected. The purpose of the meeting is to gain input, at the earliest stage of the study, from local residents and to stimulate communication and cooperation.

Brochures will be available for your review at the Wayne City Hall after January 30, 1978. Additional information may be obtained by contacting: Jack E. Morgan, Manager Public Involvement Section Michigan Department of State Highways and Transportation P.O. Box 30050 Lansing, MI 48909

Chru-An Chuang, Route Location Engineer Design Division, Bureau of Highways Michigan Department of State Highways and Transportation Lansing, MI 48909

In addition, information on this project, or any Michigan Department of State Highways and Transportation planning project, may be obtained by calling toll-free 1-800-292-9576.

2. In Memoriam

MARY NEVEU, January 3, 1964. 14 years have passed since that sad day. The one we loved was called away. God took her home. It was his will but in our hearts she liveth still. Husband & Family.

My brother "Jerry" is missed so terribly bad by me and his buddies. Howard Watkins Family, 34966 Richard St., Wayne.

5. Personals

MY DEAR LOIS VIRGINIA: Was I ever elated to hear from you. But as you said, to be discreet (because of your stock boy), I thought I best to answer in the Enterprise. With the BEN FRANKLIN STORE (labeled with BIG "9" SPECIALS, we'll get lost among the bargains. This weekend - O.K.

Love ya,
Poindexter

RUSTPROOFING. EITHER YOU HAVE IT OR YOU DON'T

Car makers don't build the rustproof car and no car dealer can deliver the real rustproofing you get with the exclusive Ziebart process.

Don't be misled by some sweeping references to "anti-corrosion methods" used in building some 1977 cars. Real rust-proofing must be done after the car is built. And it must cover every critical area inside and under the car. That's the proven Ziebart

method. There are no shortcuts. That's why your Ziebart Dealer uses nine different patented spray tools to reach rust-prone areas. That's why he uses a rustproofing sealant that actually penetrates welded seams where rust can start. Your Ziebart Dealer can deliver a rustproofed 1977 car because that's his business—and he knows it. Call him.

IT'S US. OR RUST.
